Baby Animals

A COLORING & ACTIVITY BOOK

BuzzPop®

Kitten and Puppy are on an adventure to find all their baby animal friends. Help them get ready for the trip by coloring in their fur.

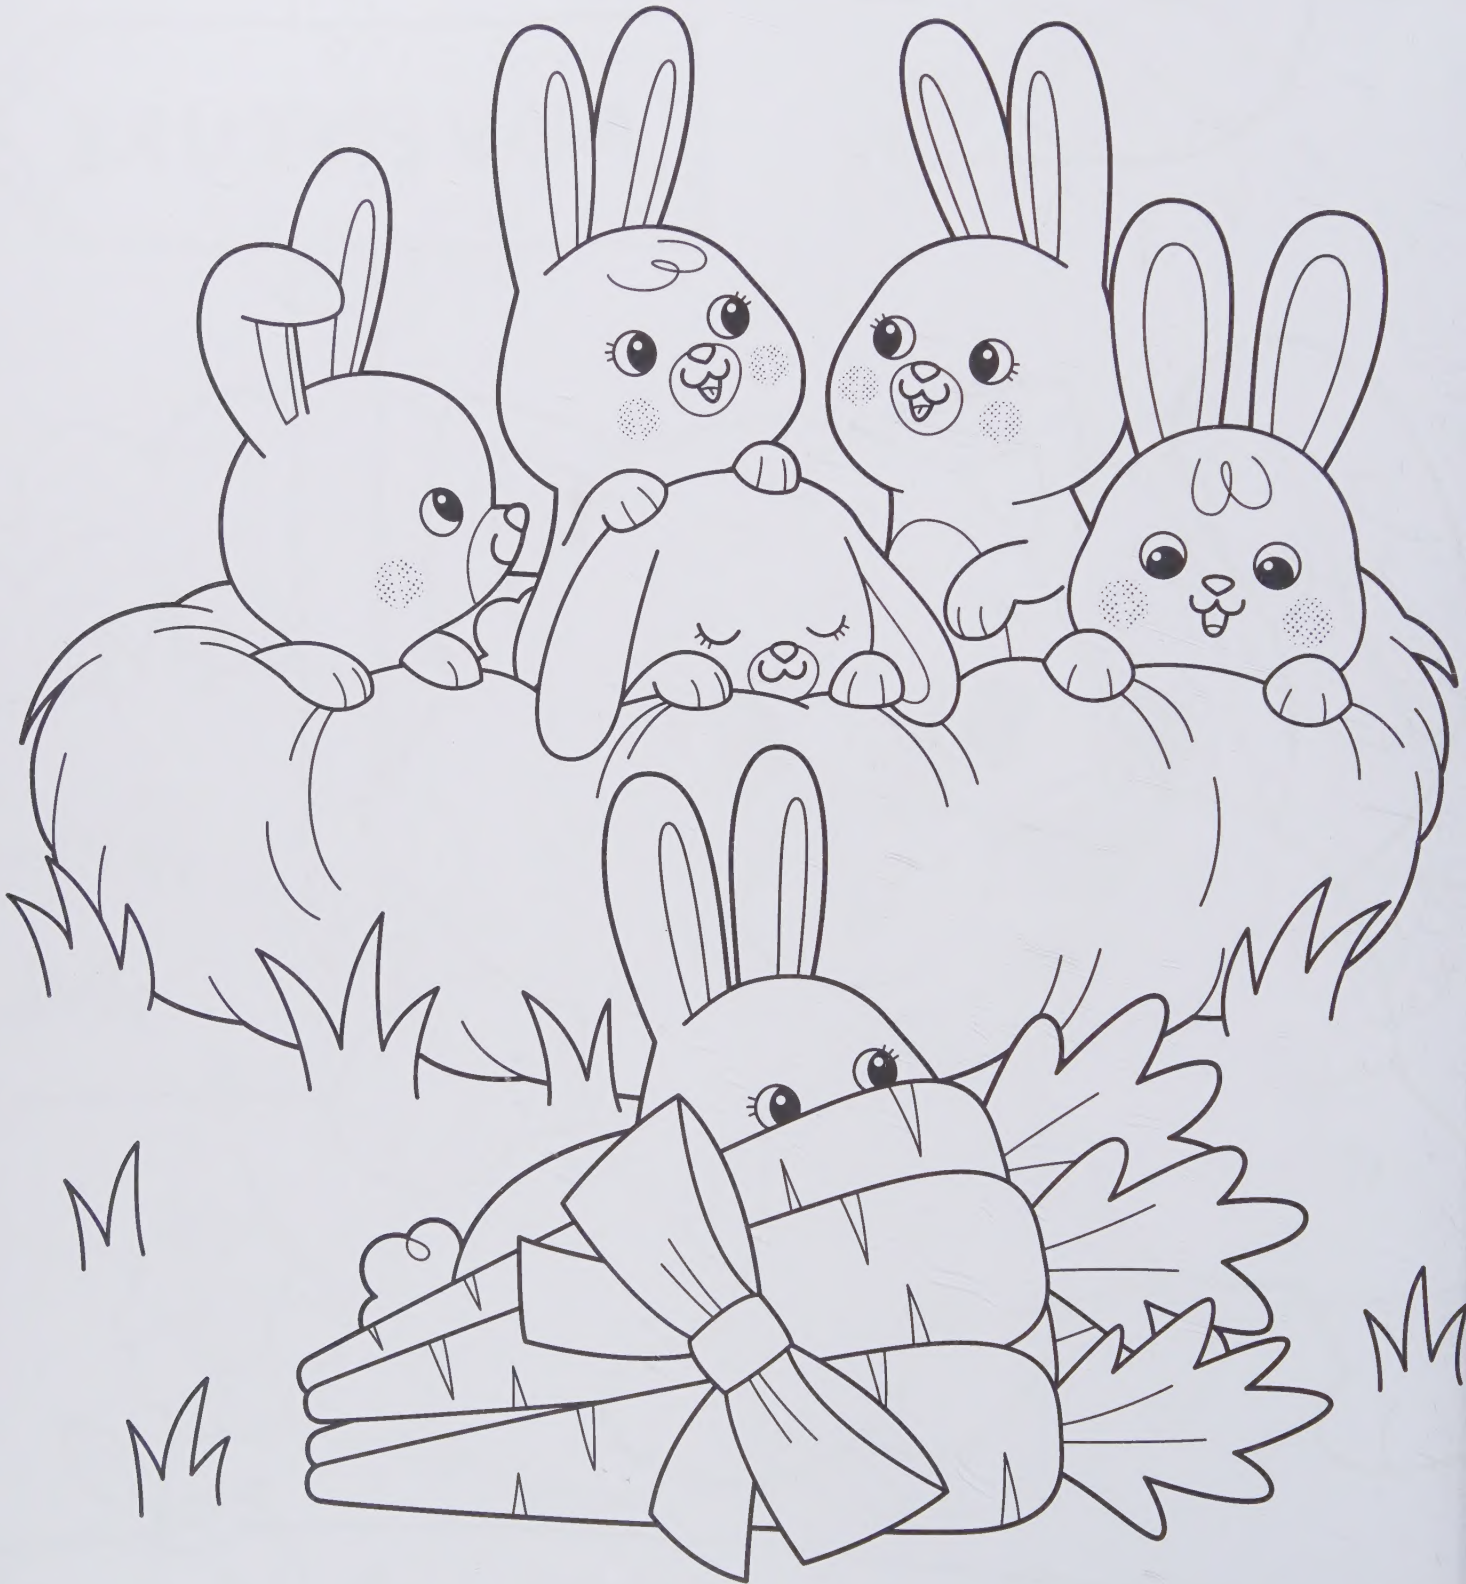

Now color the rest of the page
any way you wish!

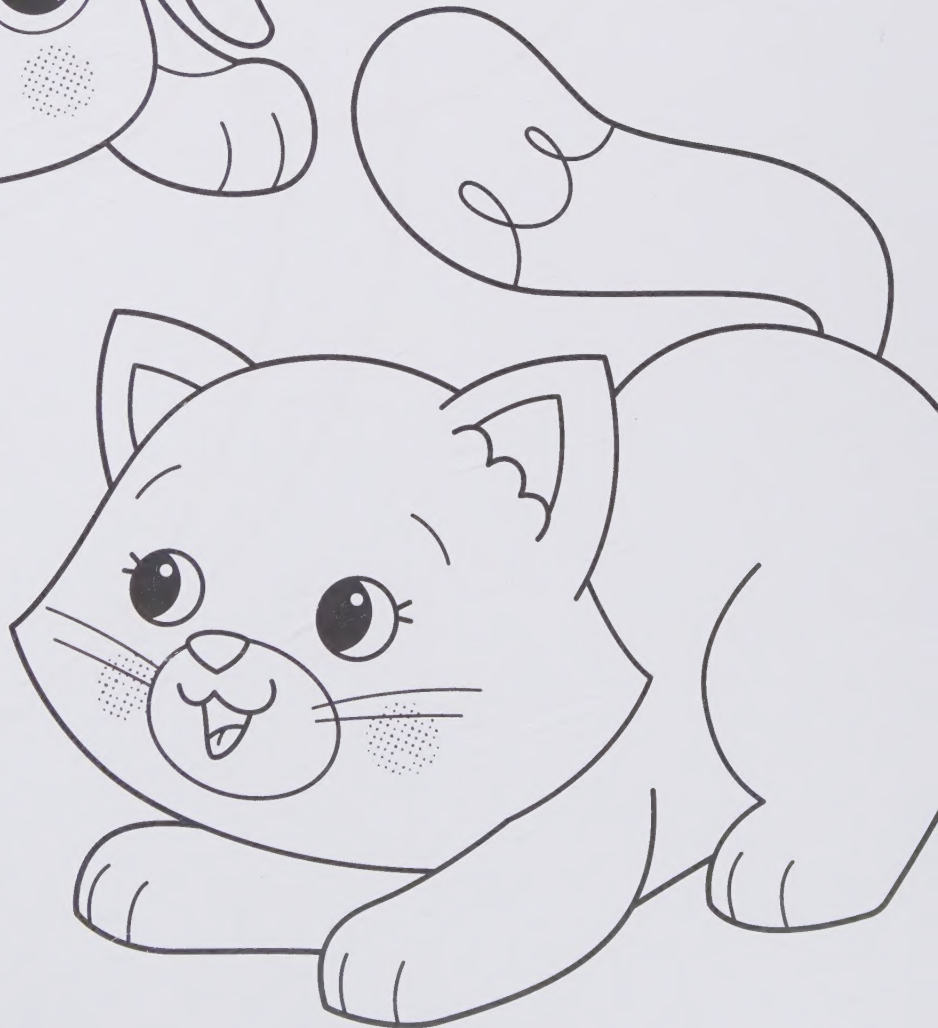

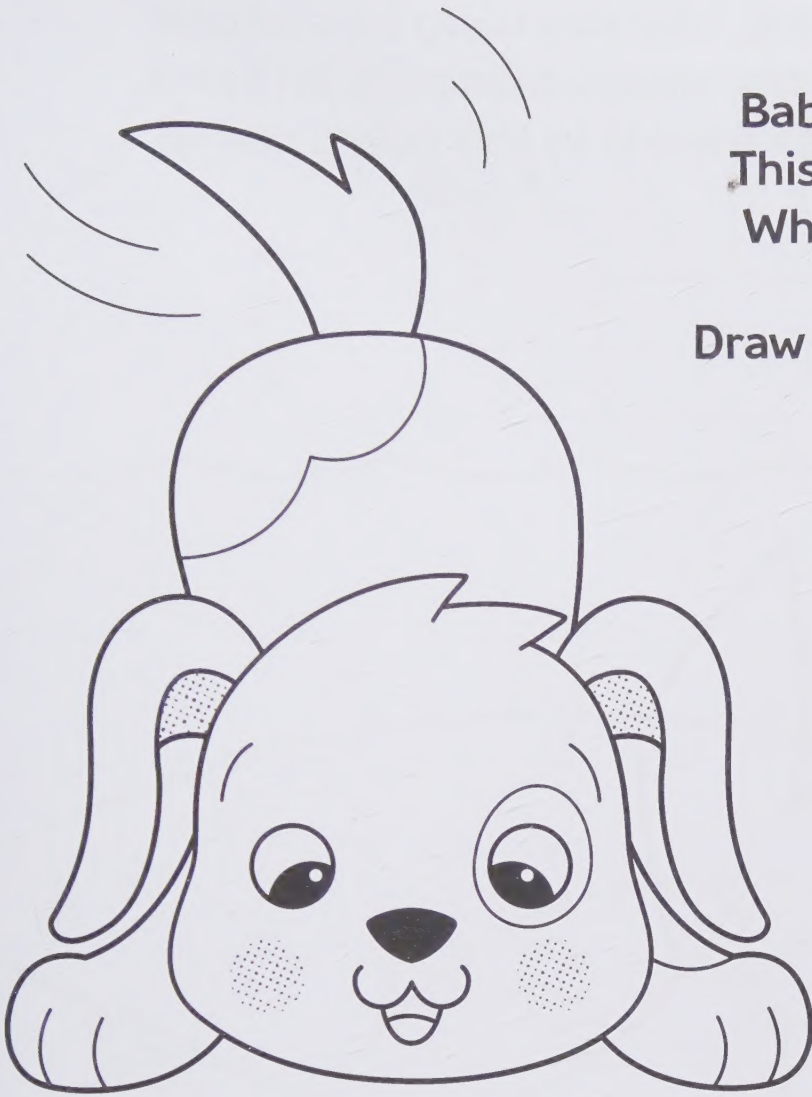

All animals start life as babies.
Can you count the baby rabbits here?
Look closely! One is hiding!

Answer: ____

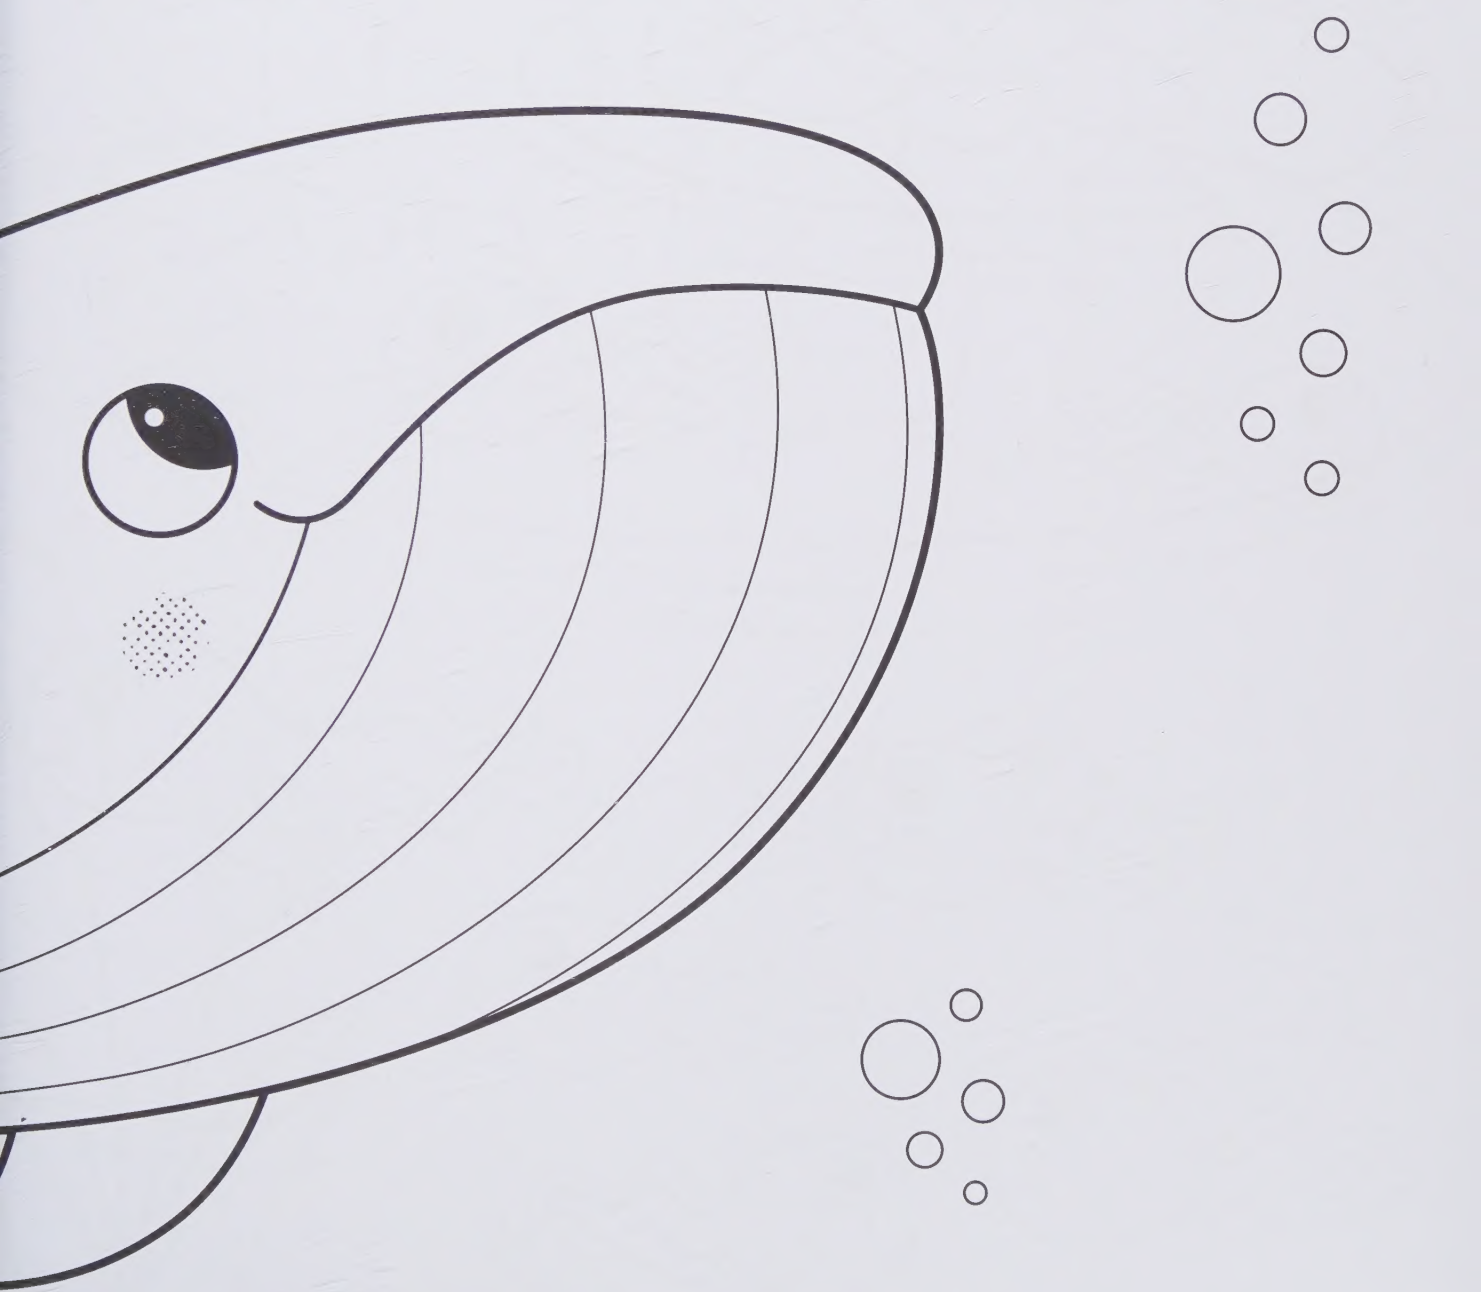

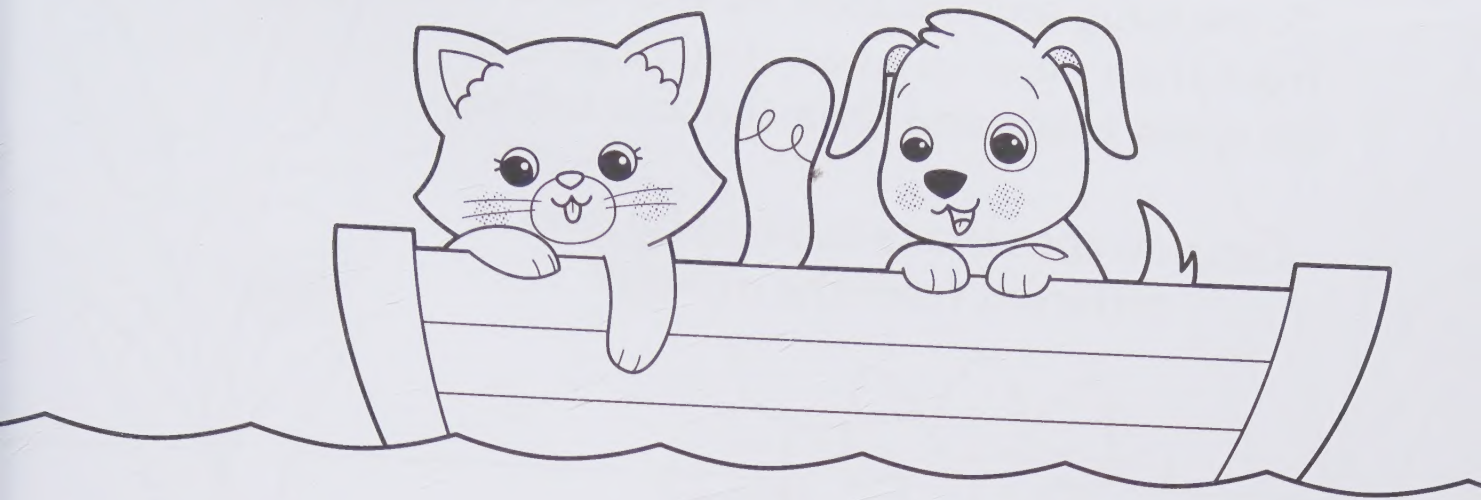

Baby animals can be small!
This larva is a baby fruit fly.
What's your favorite fruit?

Draw and color it below for him
to snack on.

Baby animals can be big. Like this baby blue whale!
Adult blue whales are the largest mammals on Earth.
Add some colorful fish friends to this ocean scene!

Some baby animals look very different from their parents when they're young, like these toads and their tadpole babies.

Can you spot the tadpole baby who is different from the others?

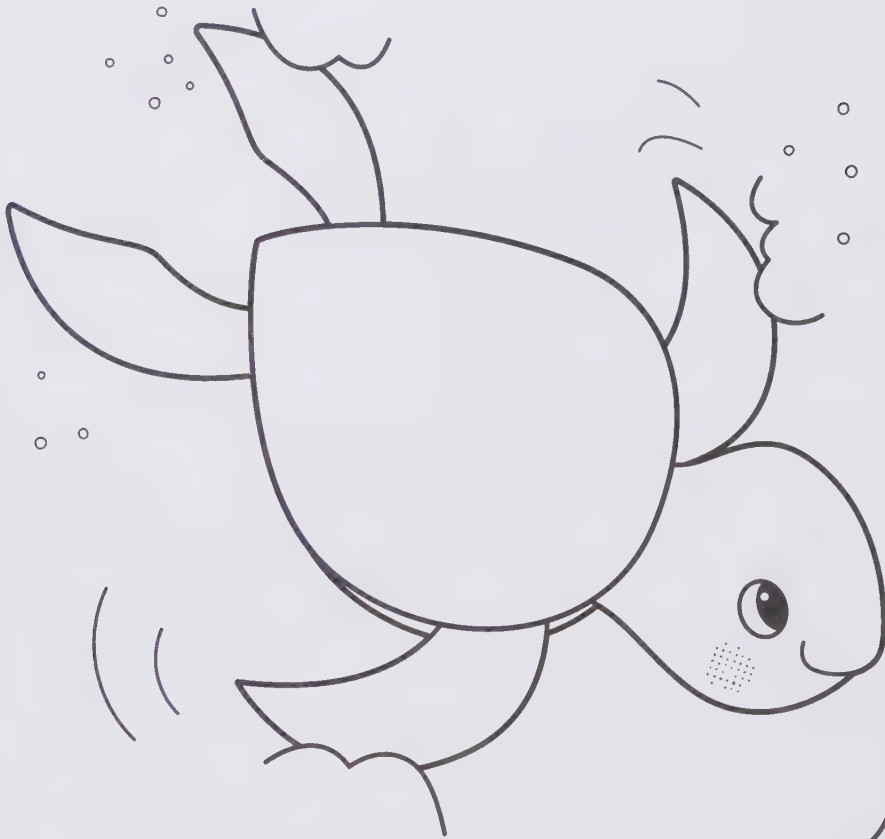

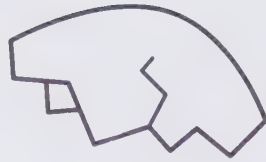

Other babies look like their moms
and dads when they're born.
This hedgehog looks a lot like her parents.
Color in the whole family!

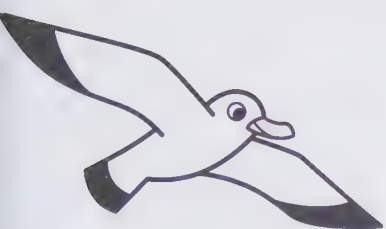

Some babies hatch from eggs.
Baby sea turtles hatch!
Create a colorful shell pattern
on this one's back!

Some baby animals like to live where it's warm.
Design a nice, warm sun in the sky for this baby snake to enjoy.

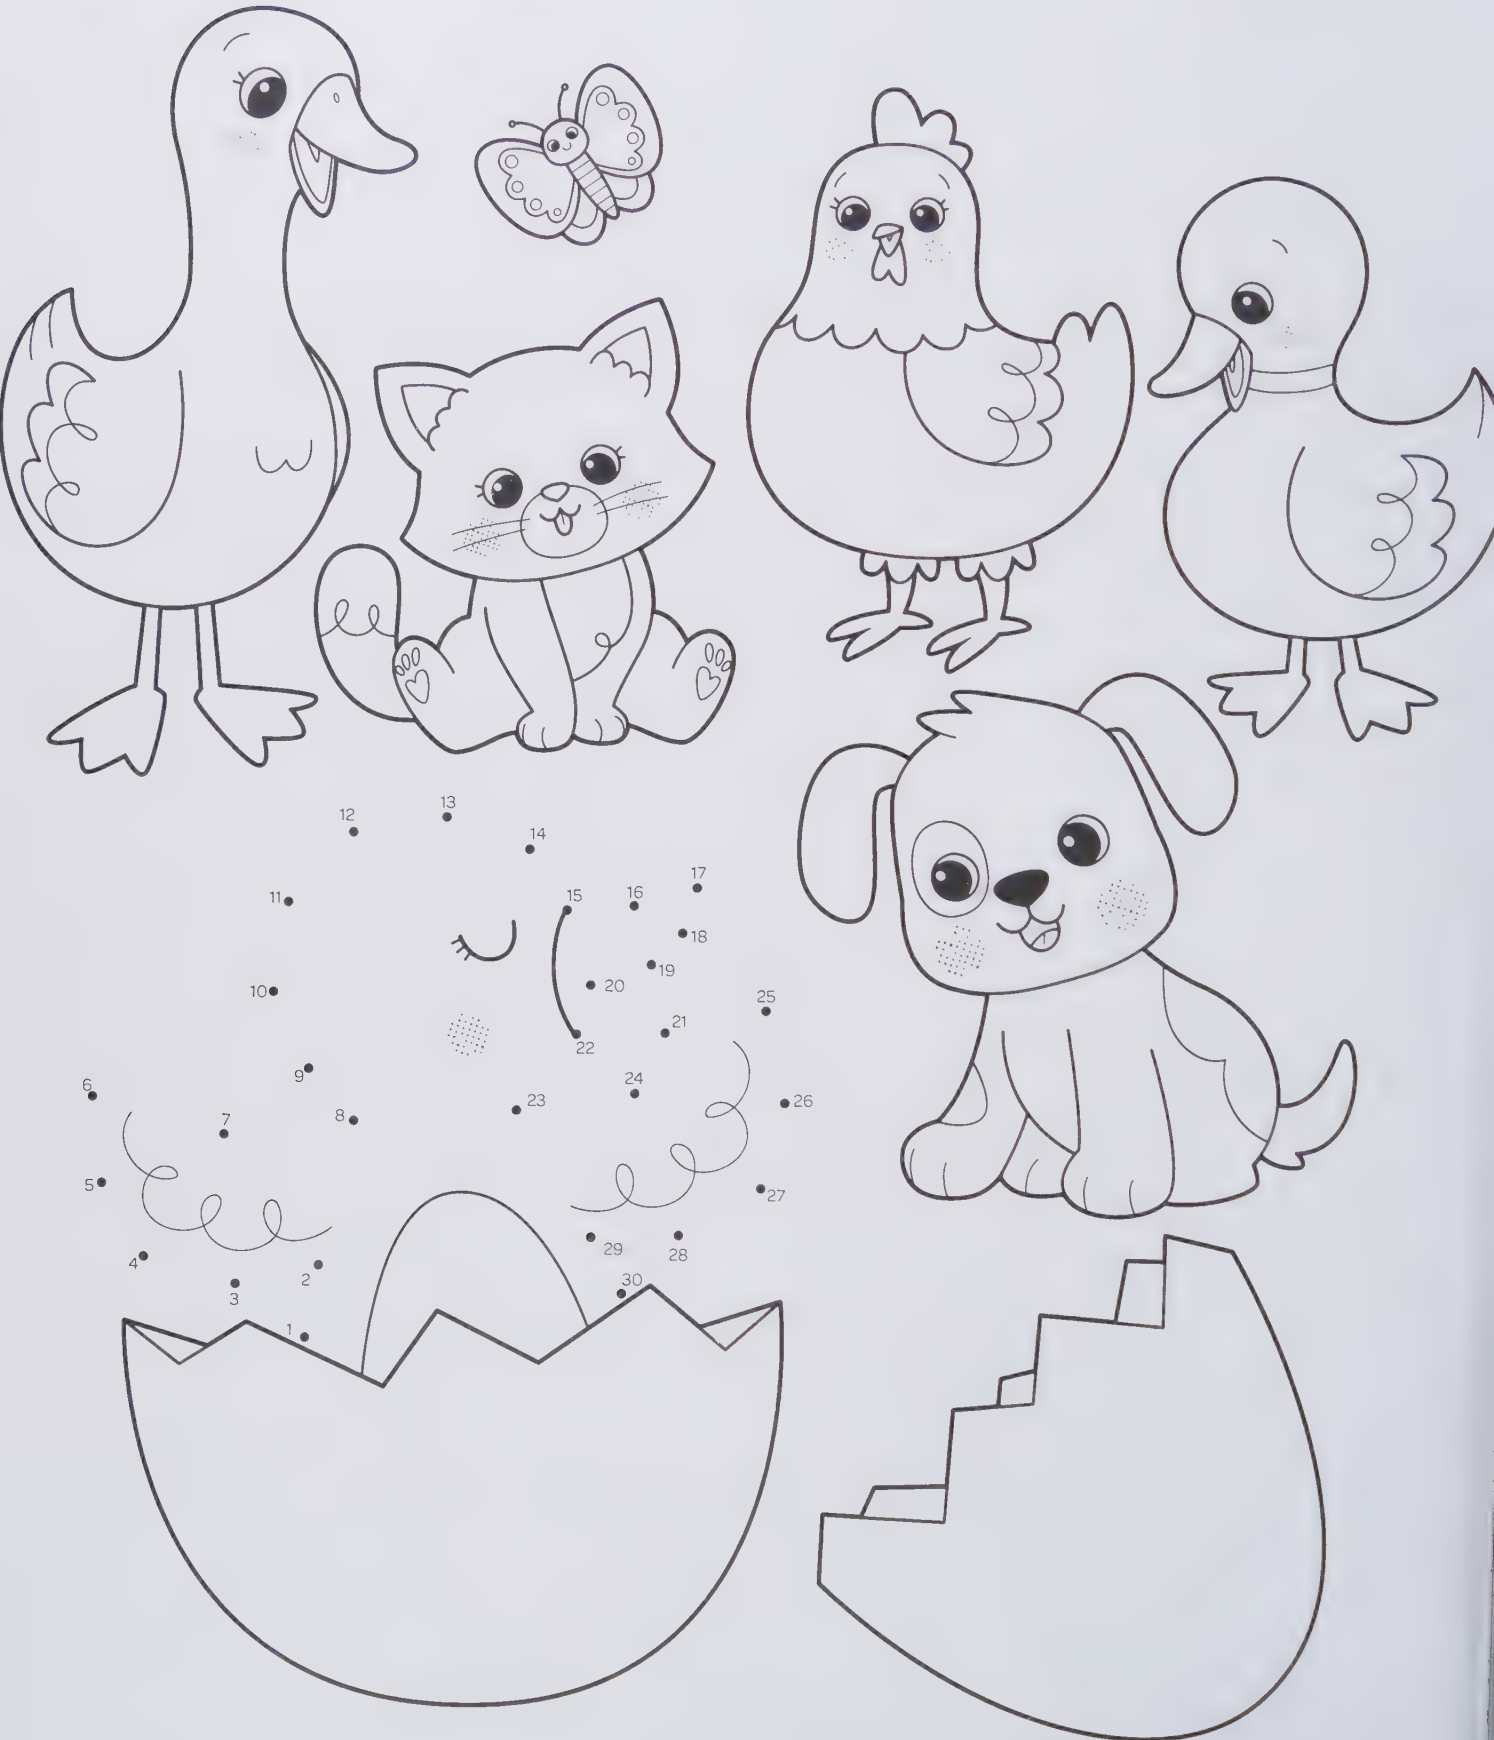

Look, a farm! There are lots of baby animals to see here.
Circle all the baby animals on the farm!

Something has hatched from this egg!
Connect the dots to see what baby animal came out!

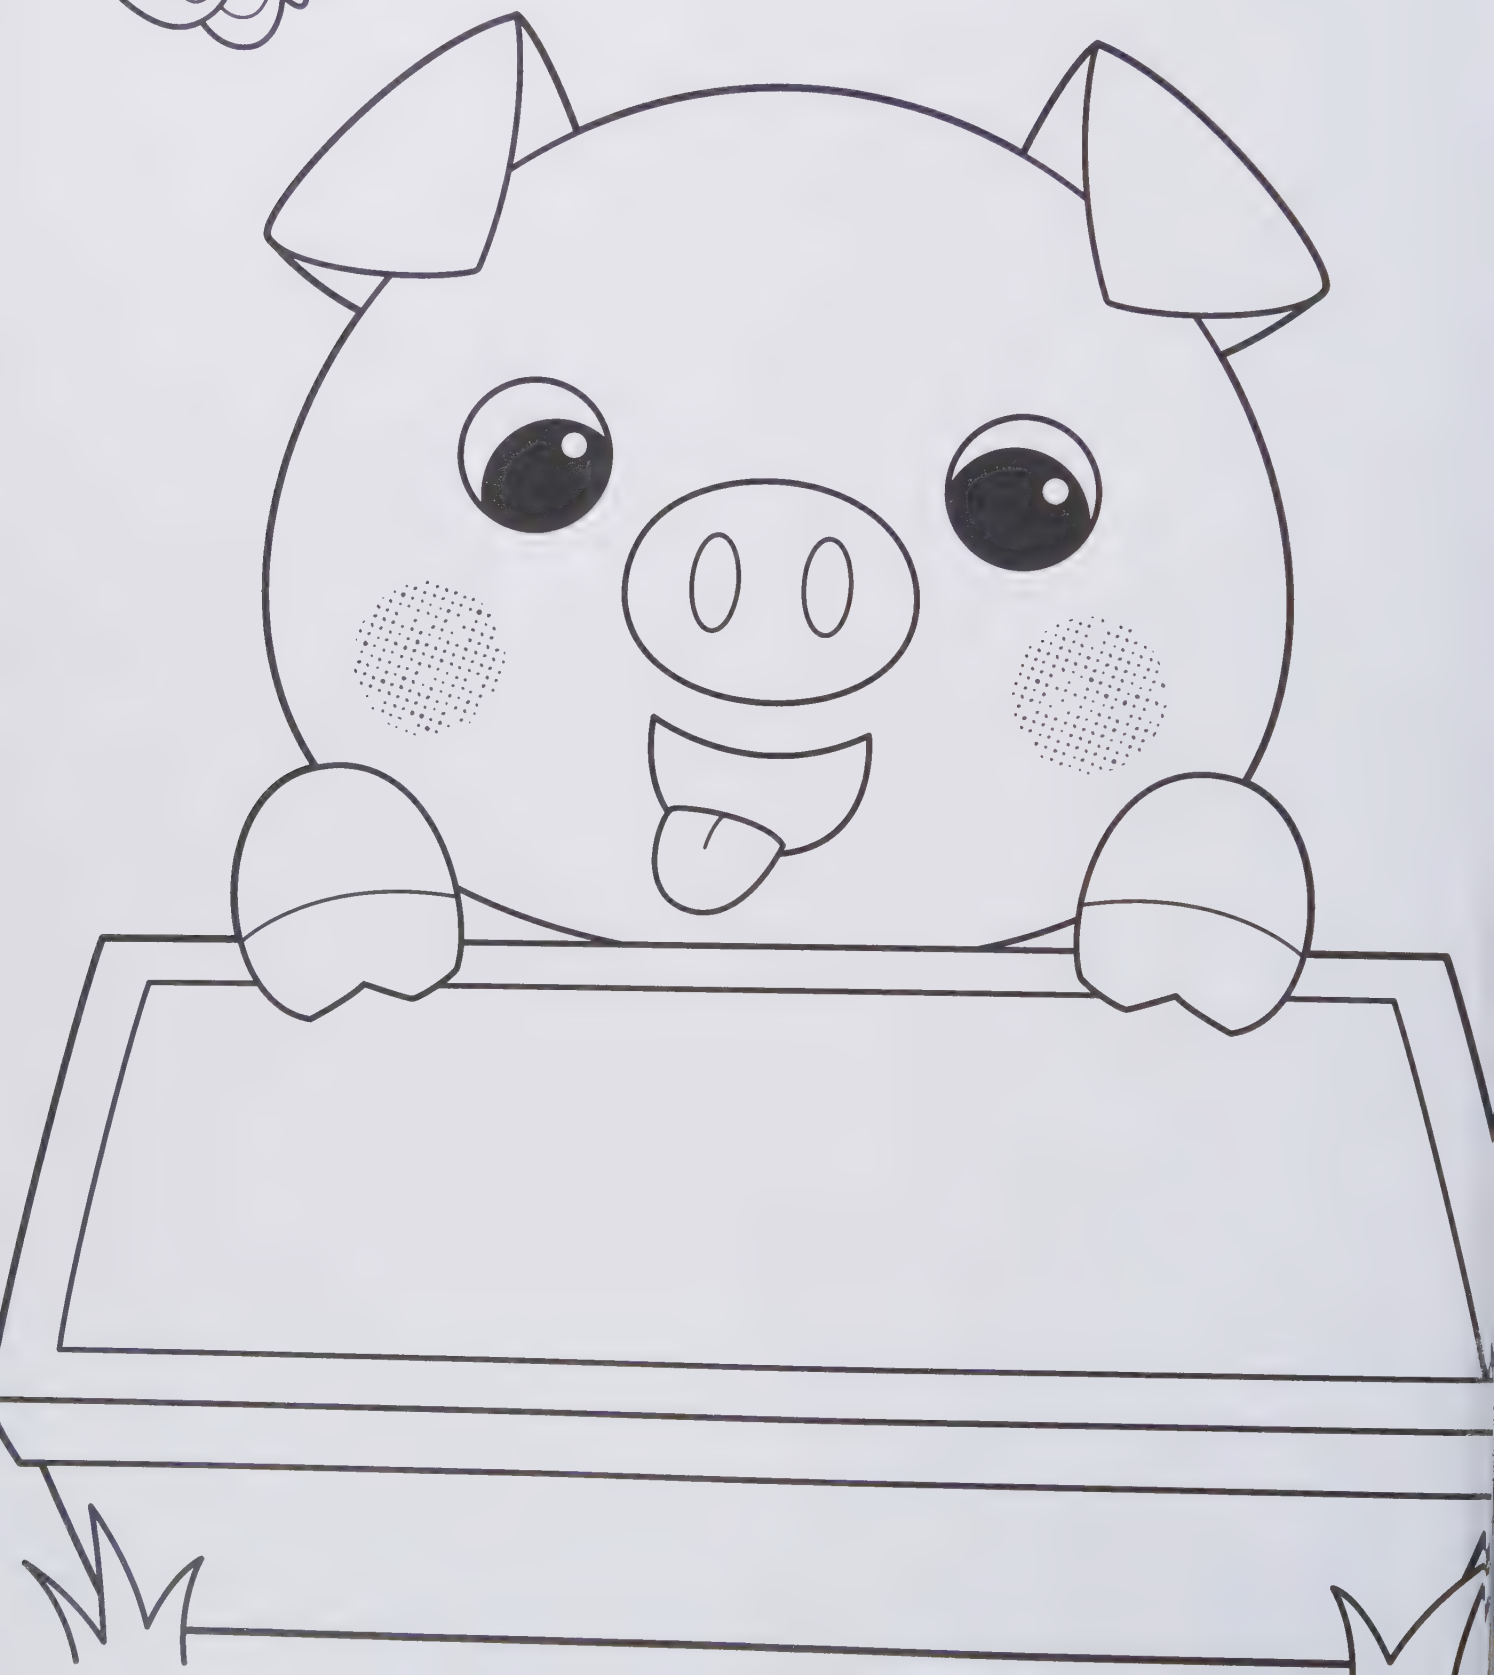

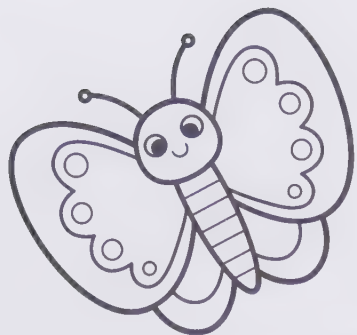

Calves are baby cows. They come in a lot of different colors and patterns. Add in some colors and patterns to give these calves new looks!

Baby pigs love to eat! Draw some food in the trough for this baby pig to munch on.

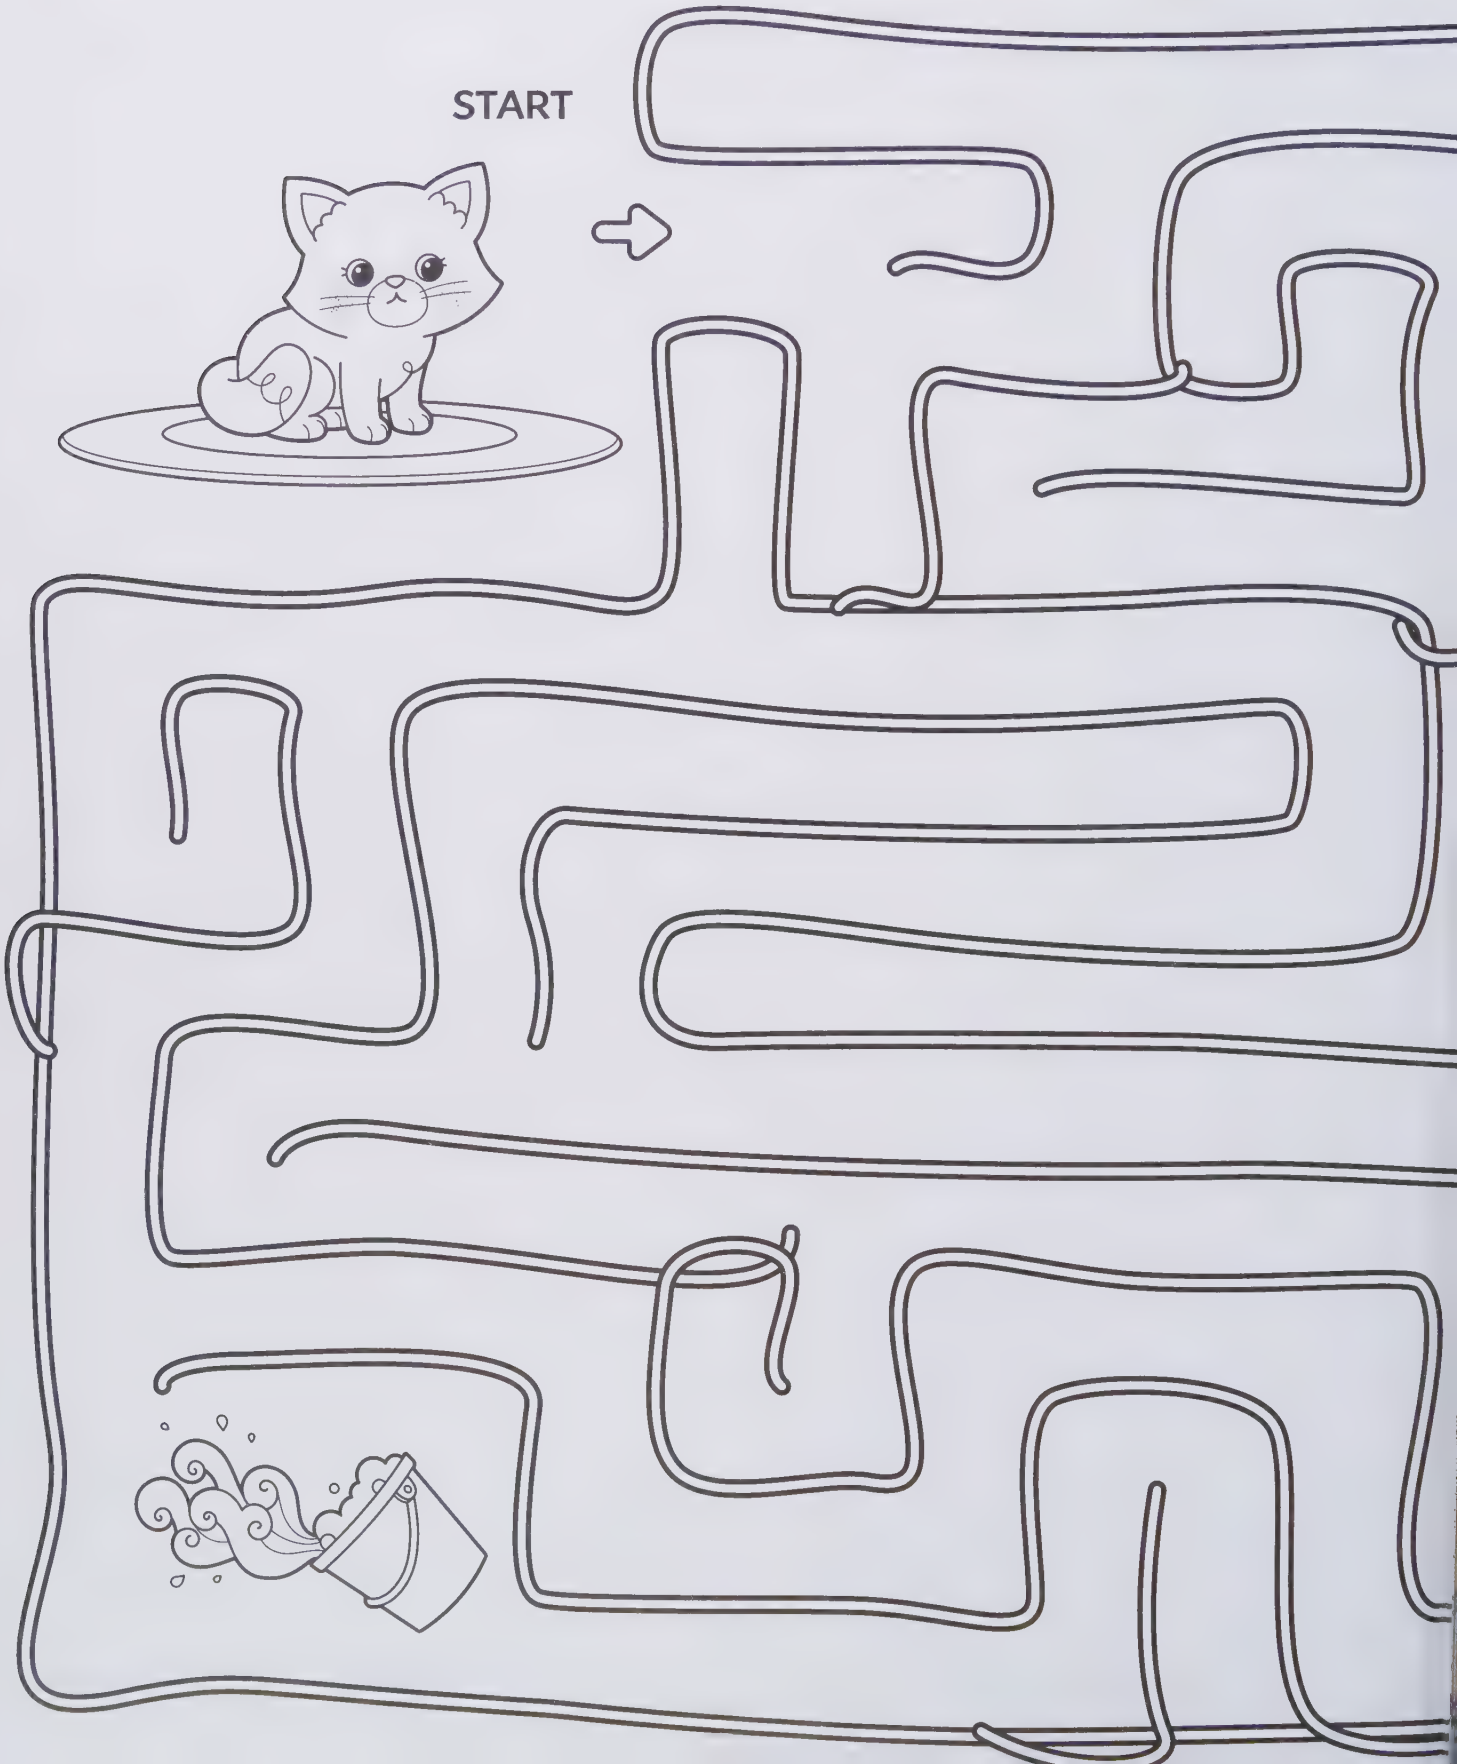

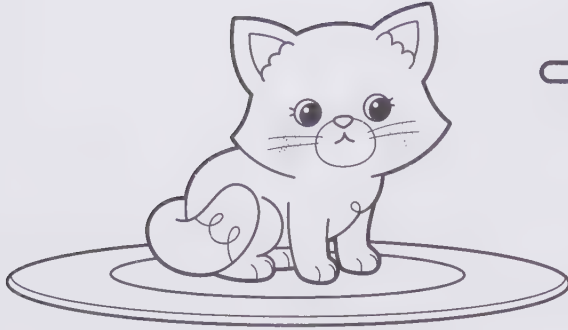

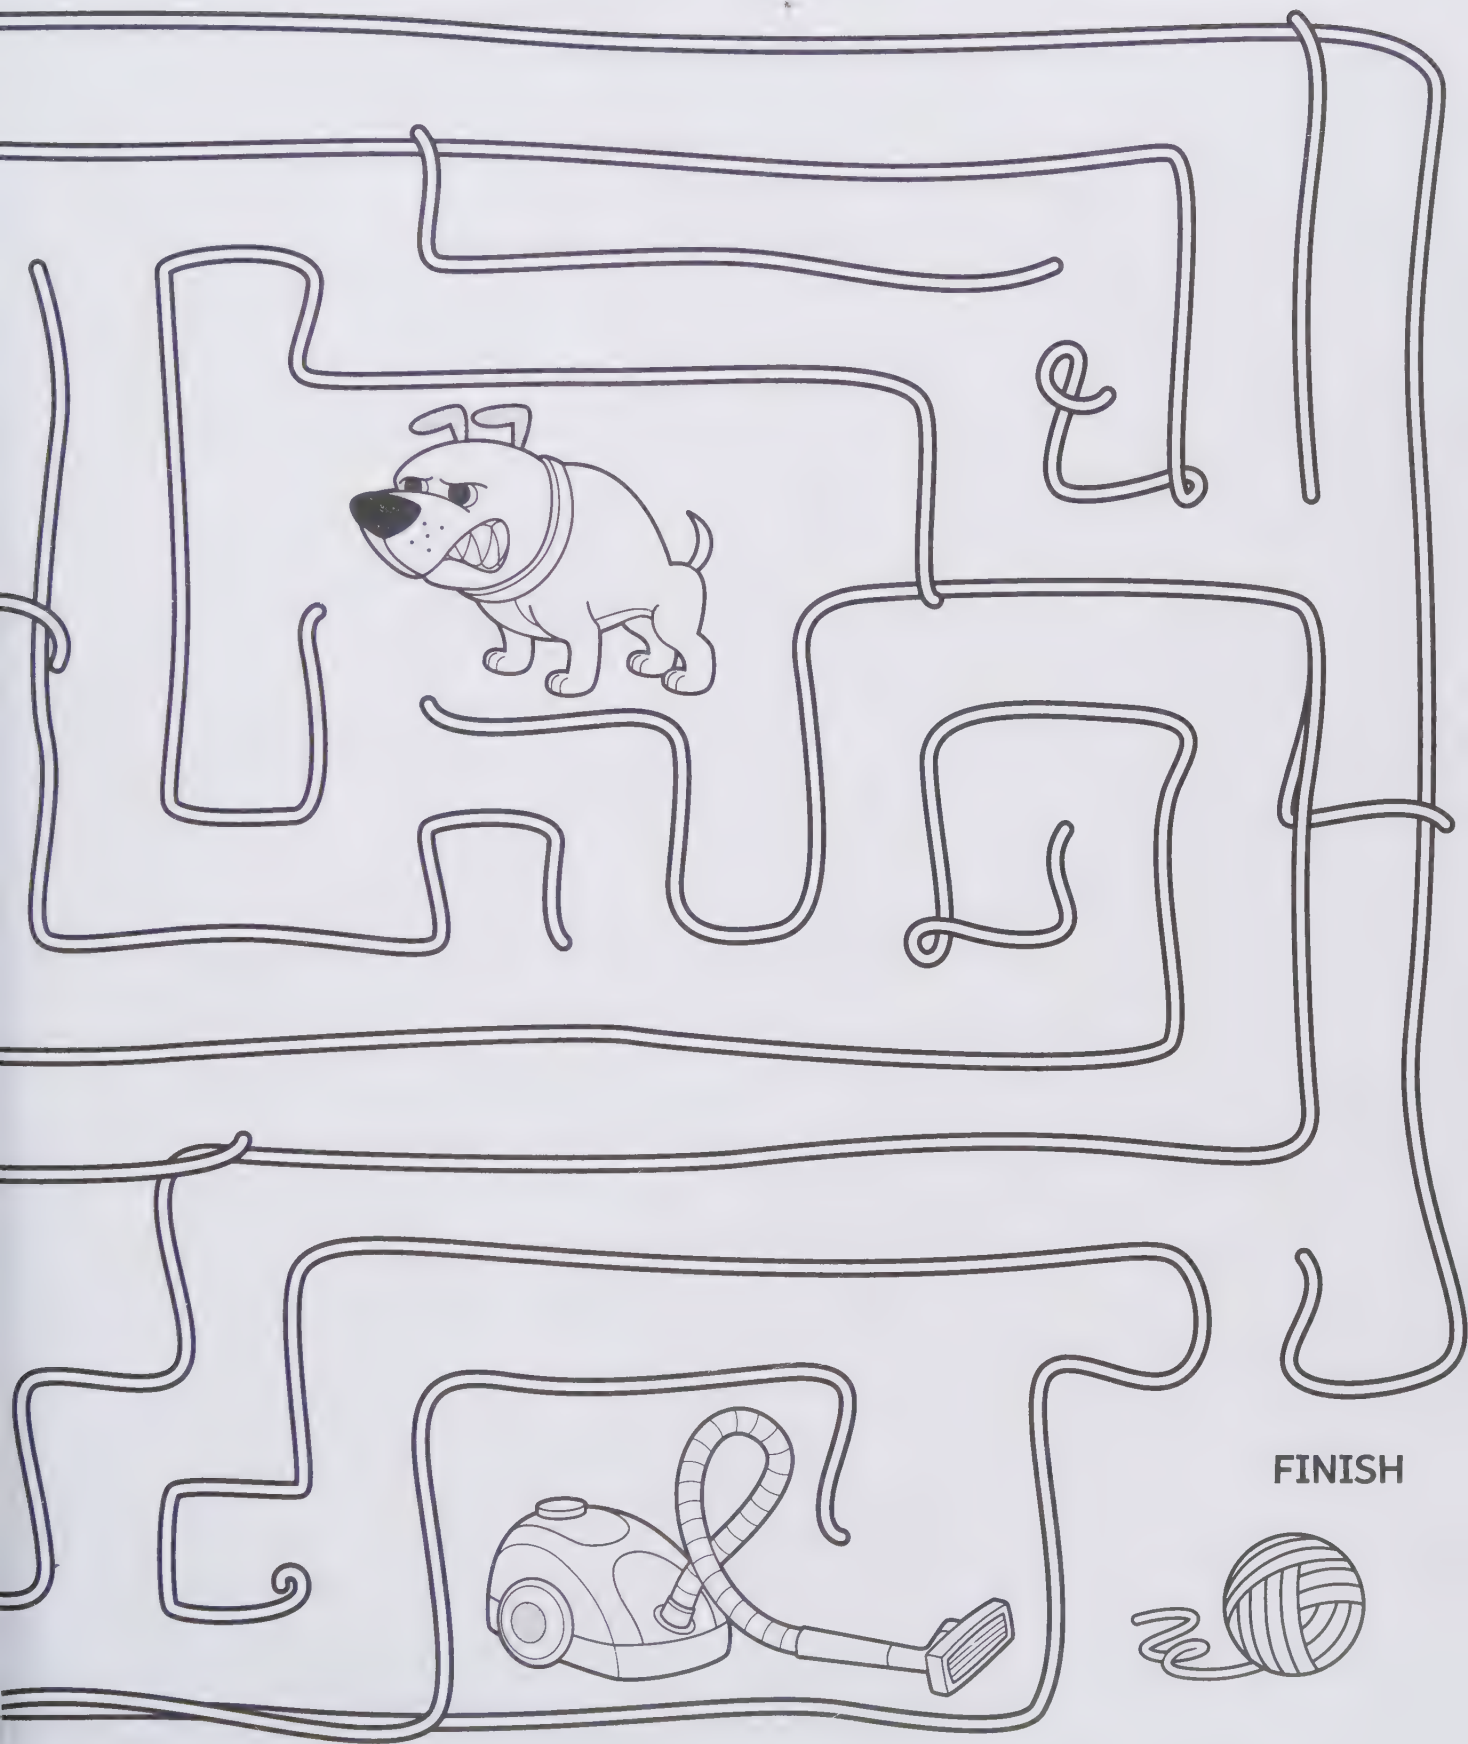

There are lots of baby animals to see at the farm!
Draw your favorite baby farm animal here!

Oops! Kitten's lucky yarn got away from her.
Help her find her way through the maze to get it back.

Hooray! The zoo! Another good place to find lots of adorable baby animals. Color in this scene!

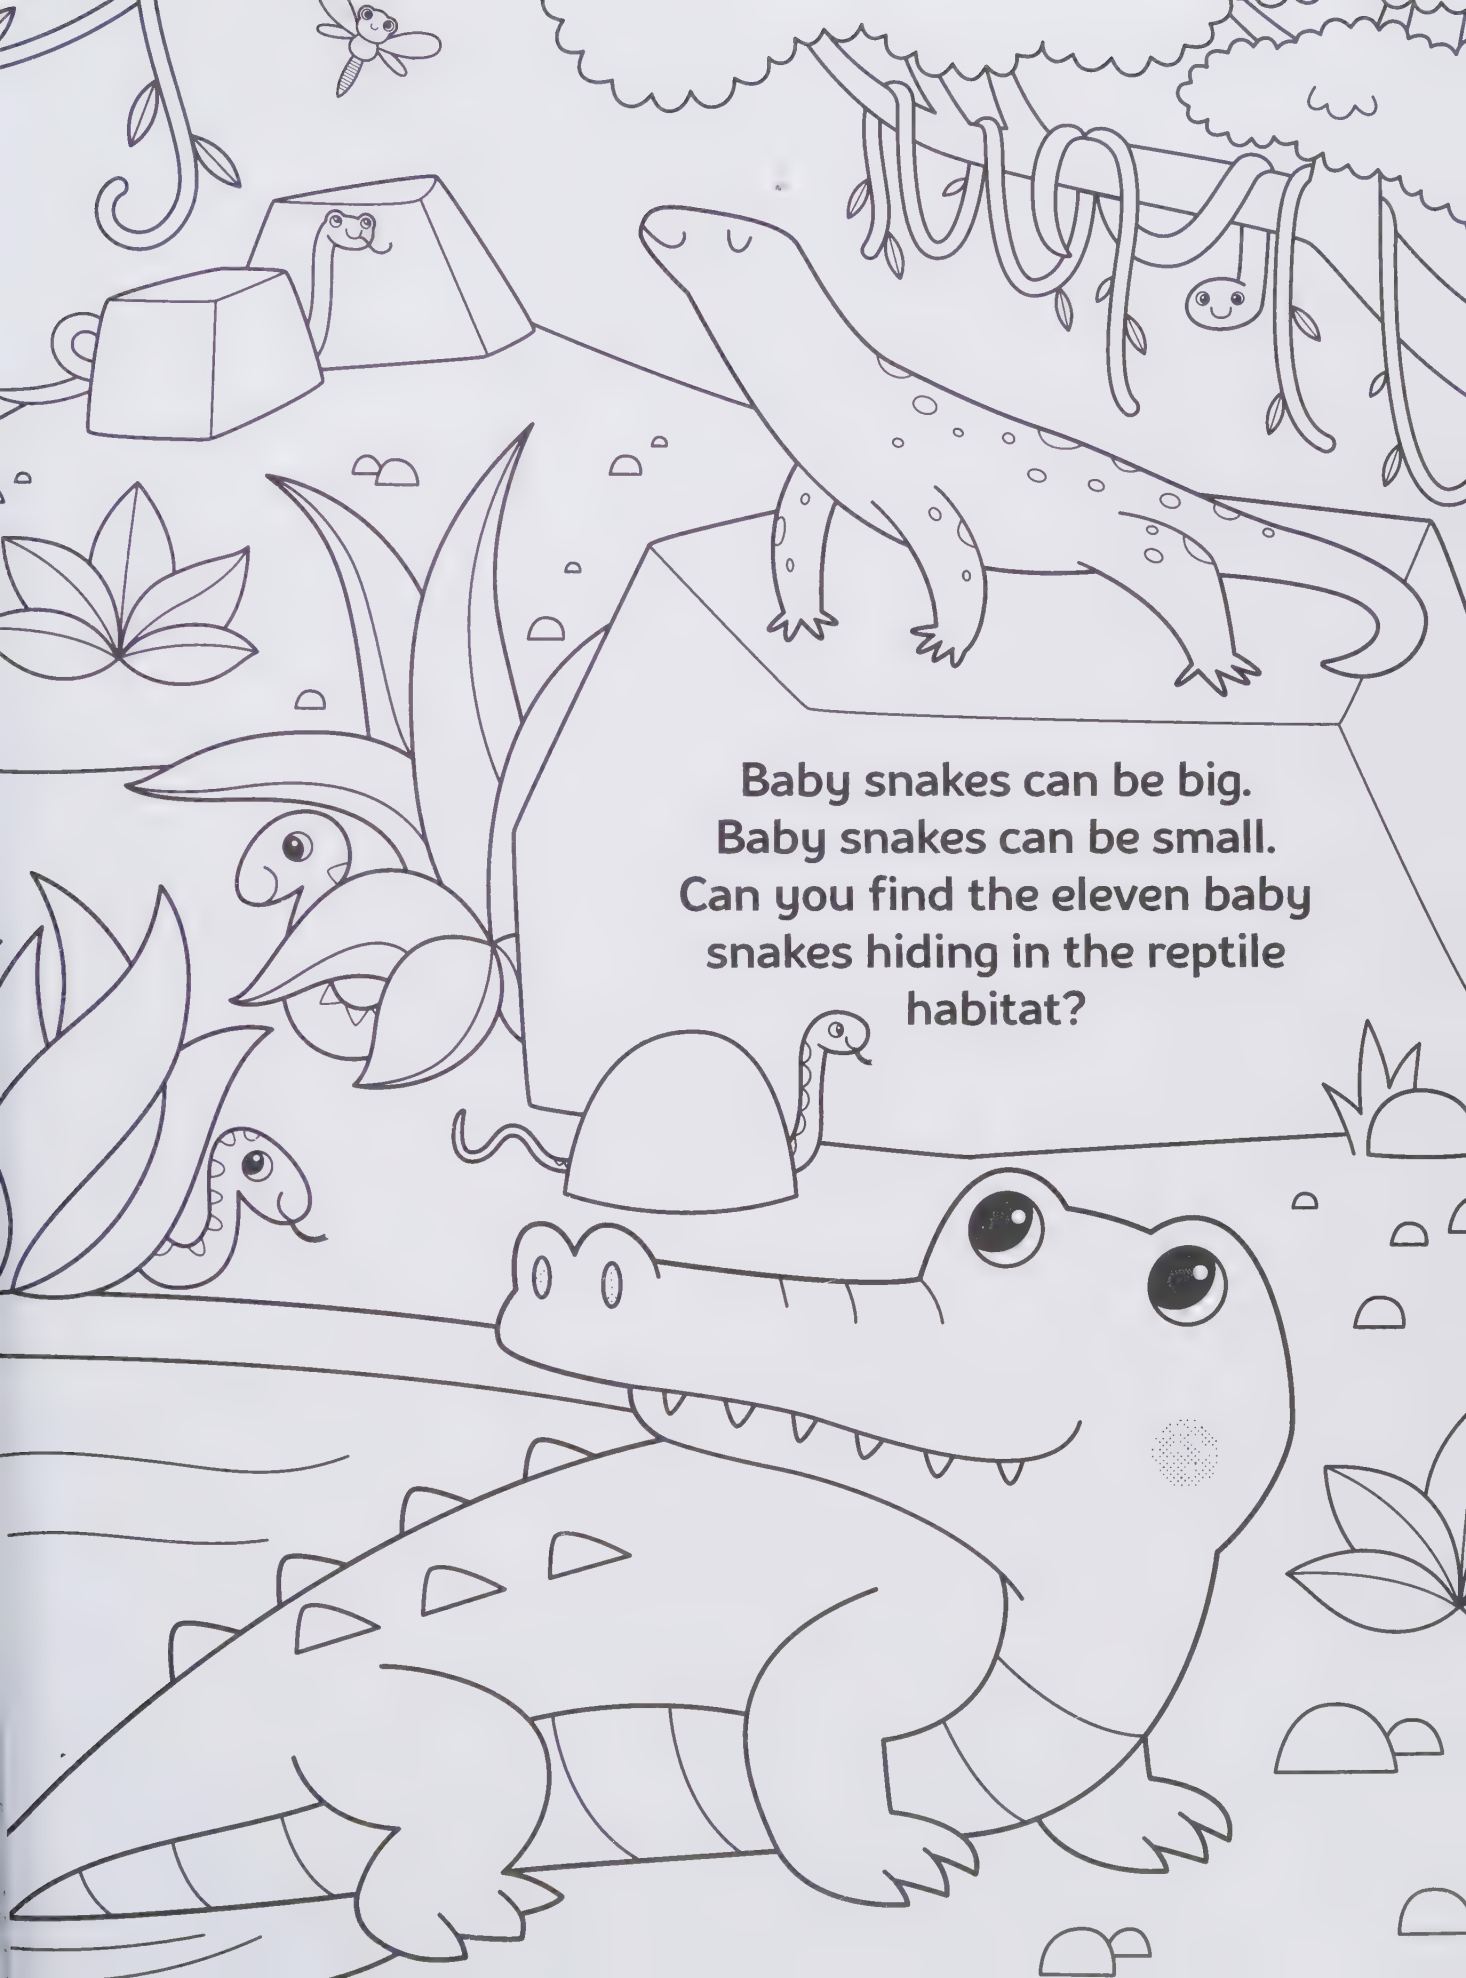

It's feeding time at the zoo, and these baby animals are hungry.
Draw a line connecting the babies to their favorite meals.

Shhhh! It's daytime, so the baby bats are sleeping.
Color them in as quietly as you can.

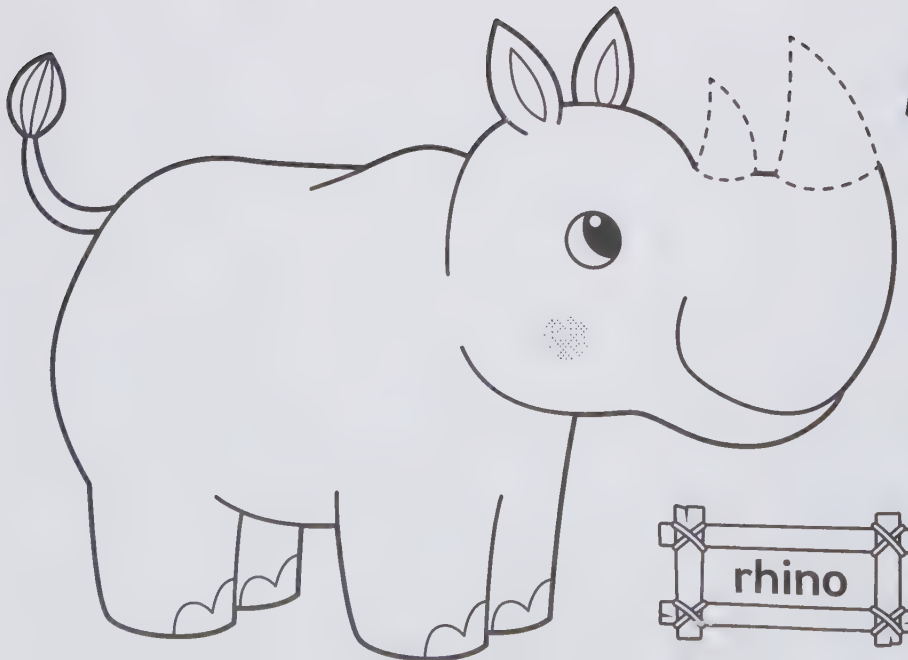

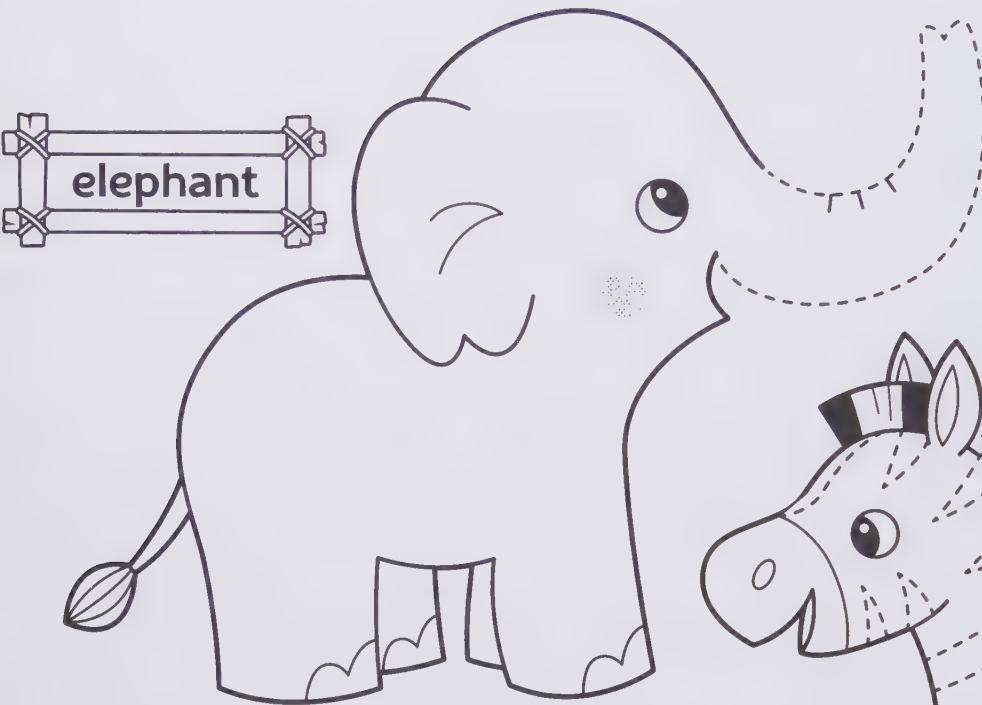

Baby snakes can be big.
Baby snakes can be small.
Can you find the eleven baby
snakes hiding in the reptile
habitat?

The baby elephant, the baby zebra, and the baby rhino are all missing something important to them.

Can you add what they're missing?

The baby giraffe can't quite reach the leaves in the tree.
Help her out by drawing something tall for her to climb!

Puppy can't find his favorite bone!
Search the zoo for Puppy's missing bone.

The forest is a great place to look for baby animals!
But sometimes they can be a little hard to see.
Can you find these baby animals hiding in this forest?

bear cub

fawn

rabbit

baby fox

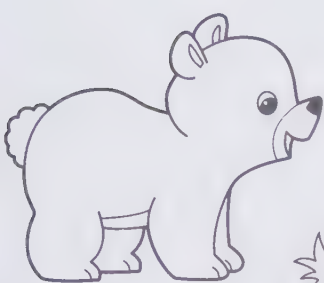

squirrel

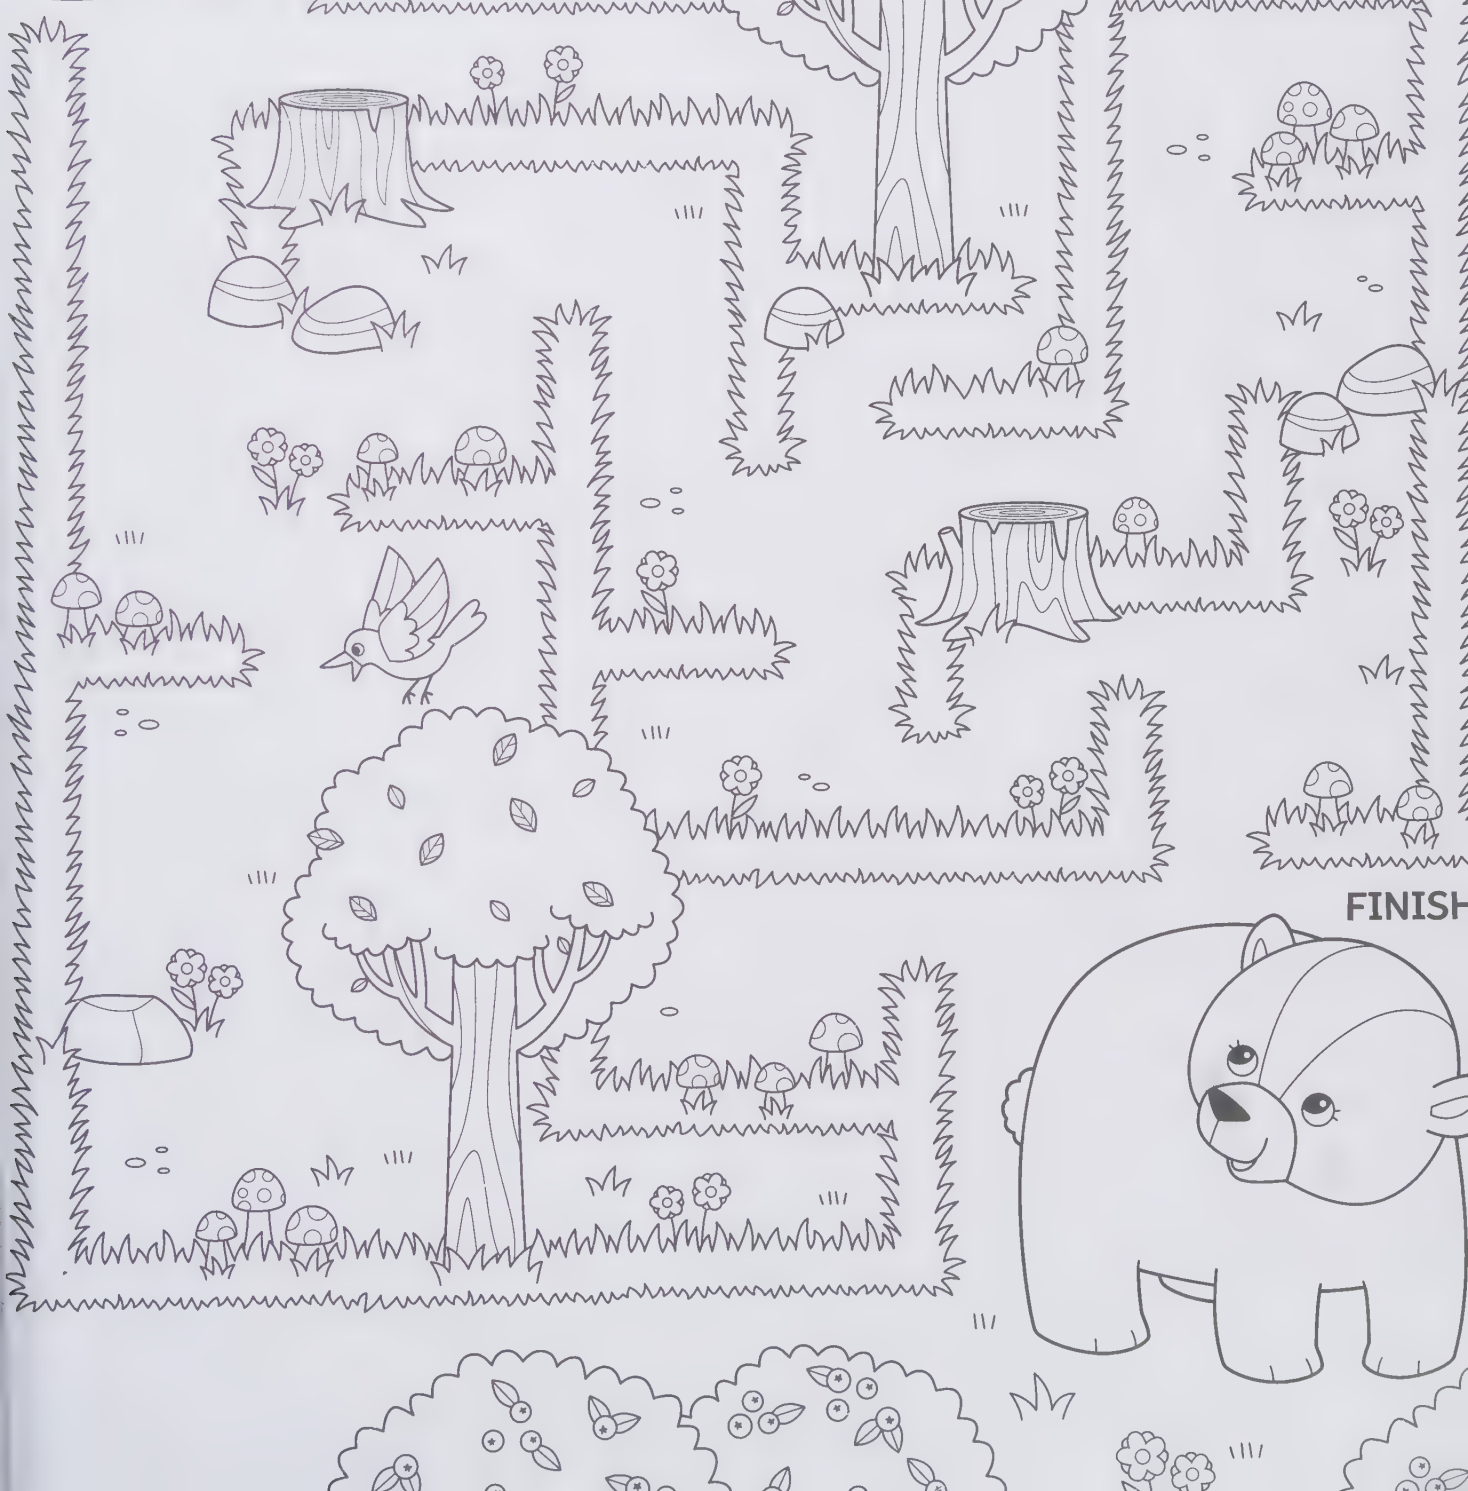

**The baby mice have made a little nest in this tree.
Draw in some items to keep the babies safe and warm!**

Baby bears eat a lot to help them prepare for hibernating all winter. Help this baby bear find his way back to the berry patch where his mom is waiting for him!

Can you spot the eight differences in these two scenes?

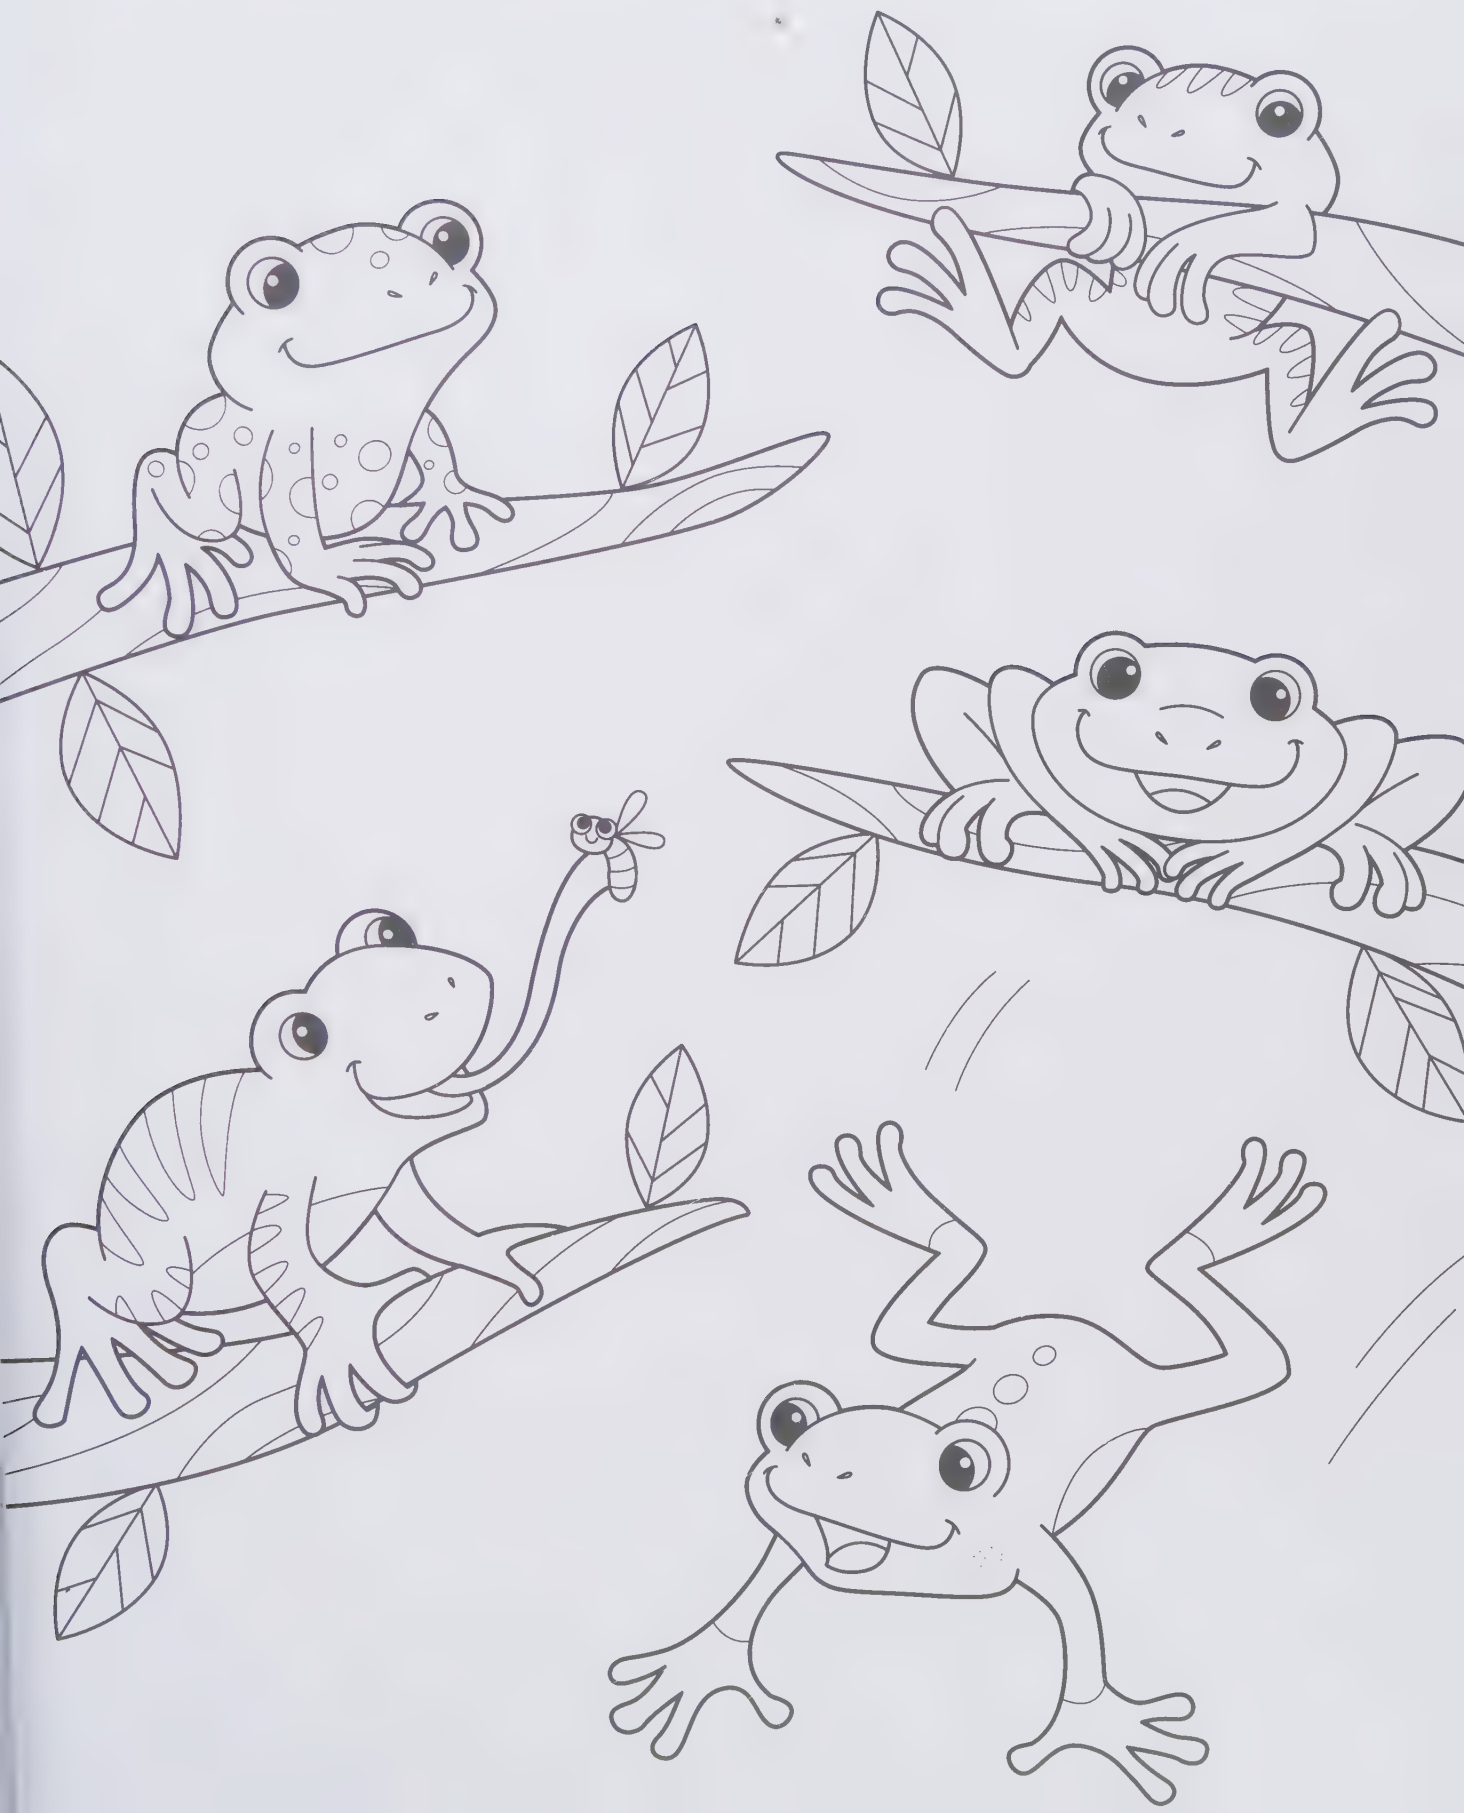

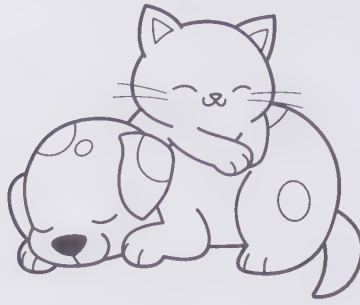

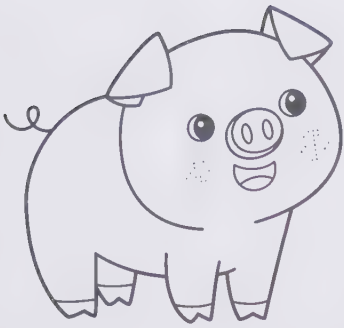

At night, the forest gets very dark, but some baby animal friends are watching out for Puppy and Kitten. Can you find the ten baby owls hidden on this page?

Tree frogs come in lots of different colors.
Quick! Color in these tiny tree frogs before they hop away!

Baby animals go by different names sometimes.

Kitten: baby cat

Puppy: baby dog

Piglet: baby pig

Kid: baby goat

Joey: baby kangaroo

Puggle: baby platypus

Fawn: baby deer

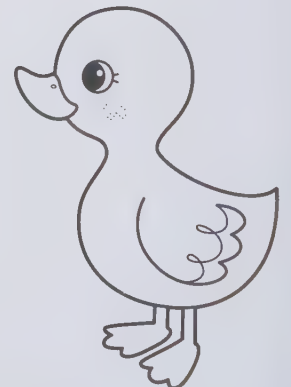

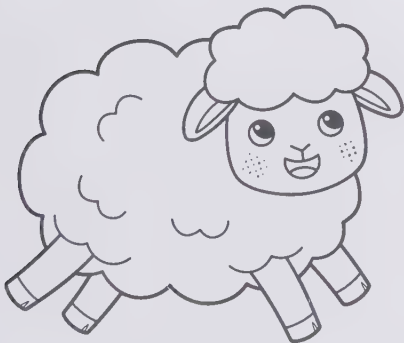

Lamb: baby sheep

Cub: baby bear

Gosling: baby goose

Eft: baby newt

Spat: baby oyster

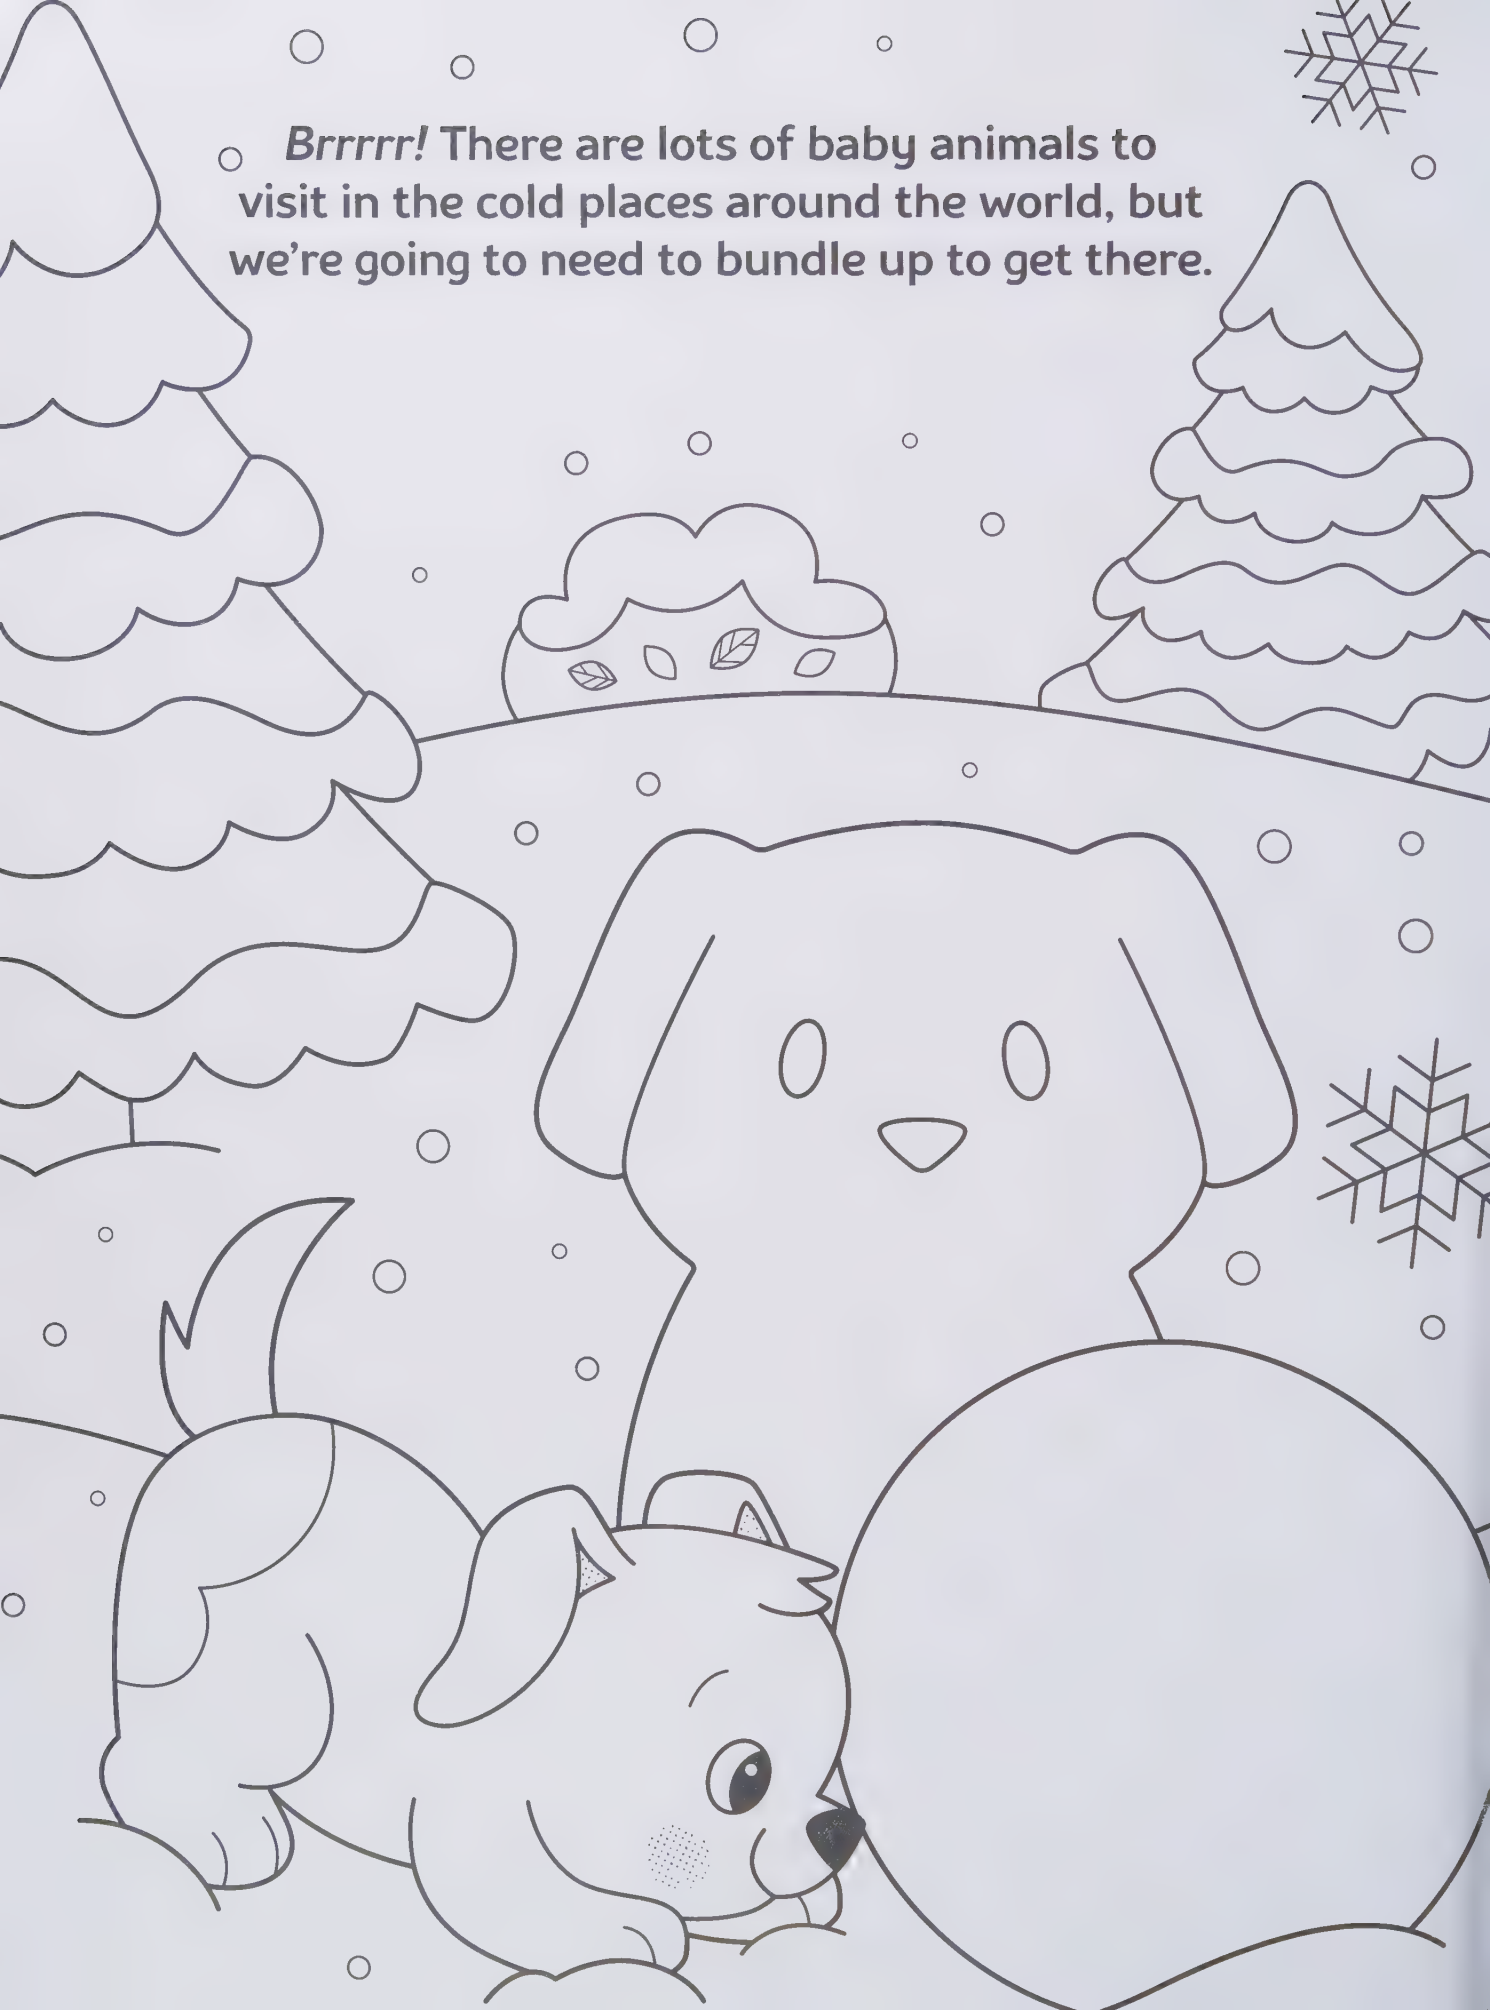

Now find the baby animal words hidden in this search.

Brrrrr! There are lots of baby animals to visit in the cold places around the world, but we're going to need to bundle up to get there.

Design some warm outfits for Puppy
and Kitten to wear.

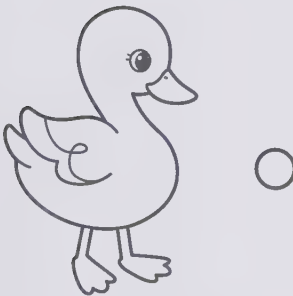

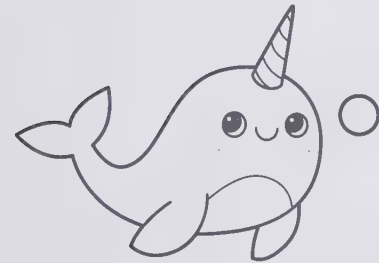

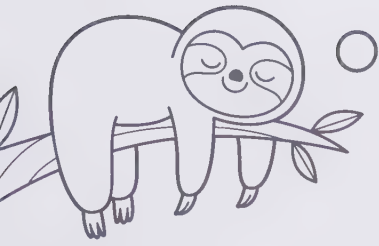

Baby seals have an extra layer of fat to help them stay warm.
Can you spot the seal that doesn't belong?

Connect the dots to discover the snow baby hidden here!

Draw a line matching each baby animal with its parent.

Many baby animals love the water. Decorate some umbrellas for these water-loving friends.

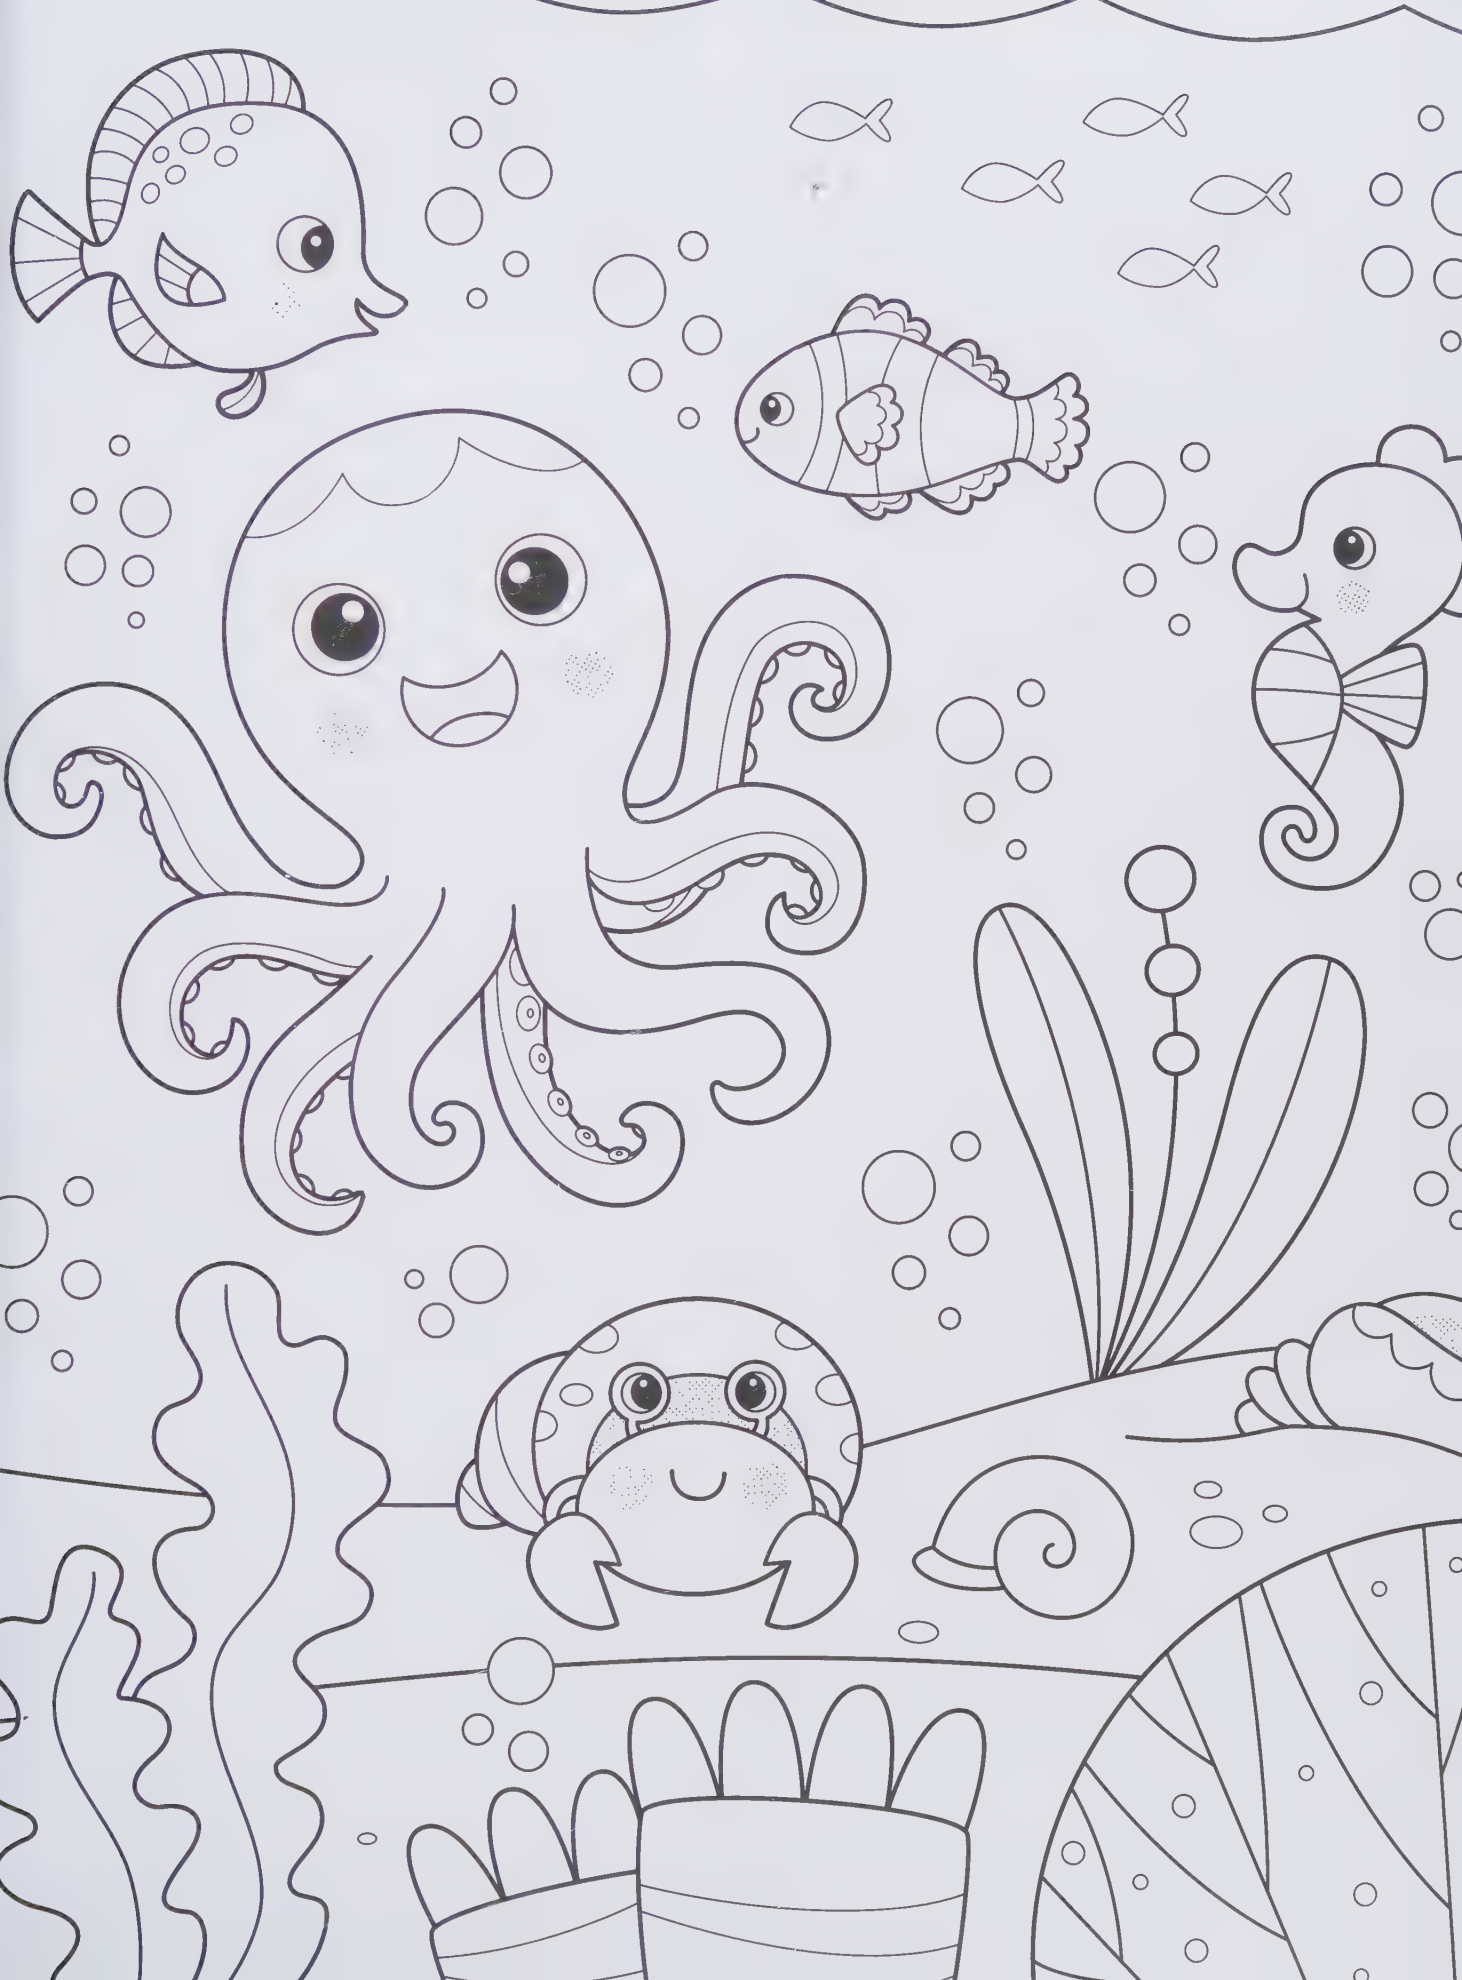

Other baby animals not only love the water, but live in it!
Help the beaver family build their home in the pond by
adding some sticks of your own.

A group of fish is called a school. Can you spot the baby fish that's different from the others?

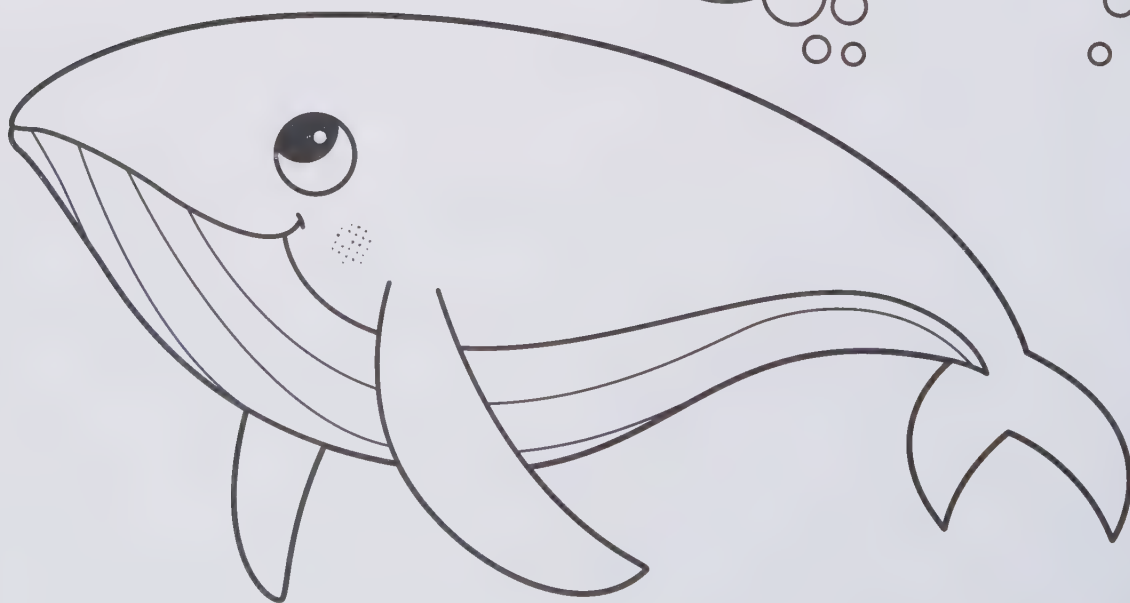

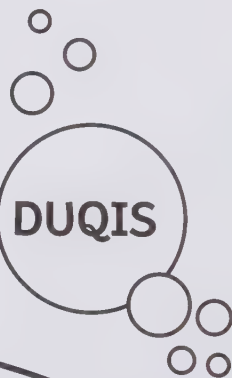

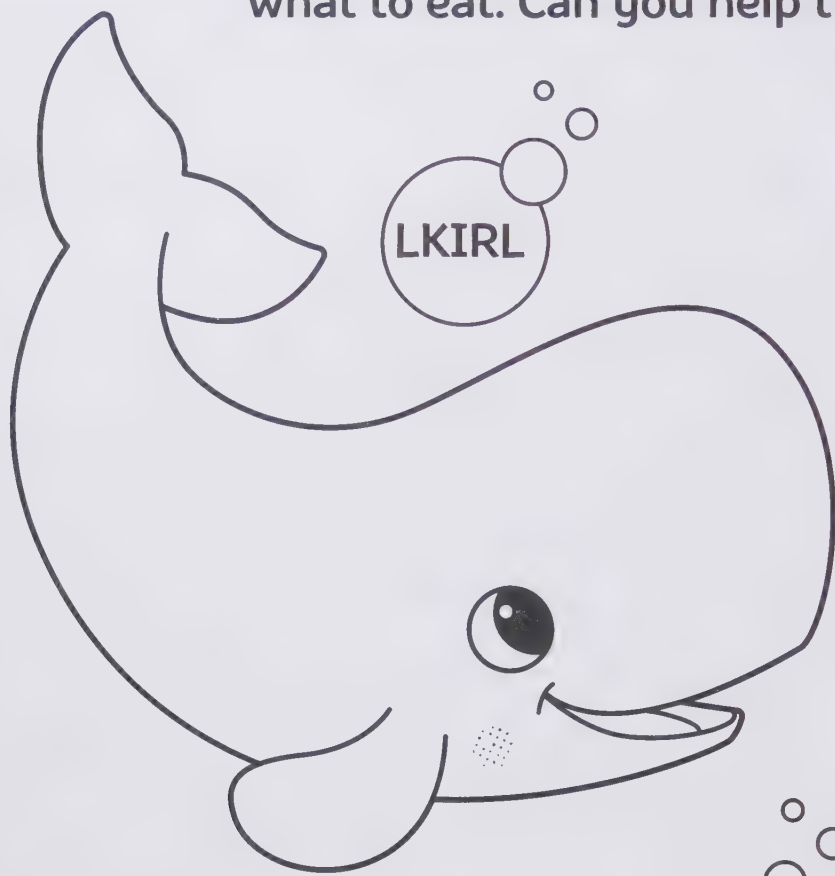

The ocean is very big. Lots and lots of baby animals live there. Color in this ocean scene!

These baby whales need to unscramble the letters to figure out what to eat. Can you help them?

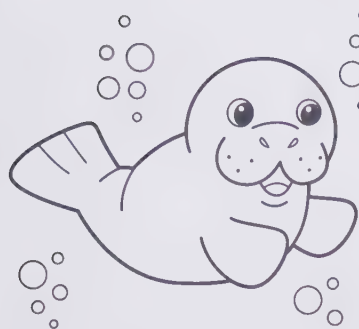

This baby octopus has eight legs. Can you make each one a different color?

A shark! Can you spot the seven fish hiding from it in this reef?

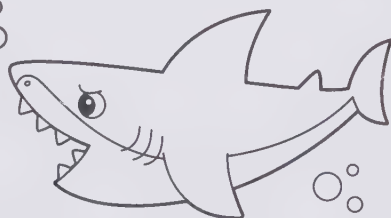

Manatees eat grass and algae. Can you help the baby manatee find its way back to the grassy shallows, helping him avoid danger on the way?
